## **HISTORY AND POLICY: THE FLORIDA LOTTERY AND EDUCATION**

On November 4, 1986, a constitutional amendment was passed in a statewide election, creating [Article X, section 15](#), of the Constitution of the State of Florida, providing for the operation of a state lottery. Of the 3,208,295 voters who voted on the amendment, 2,039,437, or 63.57 percent, voted for the amendment, while 1,168,858, or 36.43 percent, voted against it.

The 1987 Legislature enacted the Florida Public Education Lottery Act, codified as [chapter 87-65, Laws of Florida \(L.O.F.\)](#), to implement the constitutional amendment. [Section \(s.\) 24.102\(2\), Florida Statutes \(F.S.\)](#), expresses the intent of the Florida Legislature for the lottery to generate additional funds for education to be administered by a self-supporting, revenue-producing state department that functions as much as possible as a business enterprise. The Florida Public Education Lottery Act also created [s. 24.121, F.S.](#), which governs the allocation of revenues and expenditures of lottery tickets.

[Section 1010.70, F.S.](#), requires the Florida Department of the Lottery to determine variable percentages of the revenue generated from the sale of lottery tickets, not including application processing fees, to be deposited in to the Educational Enhancement Trust Fund (EETF). These funds are used to support the programs described beginning on page 18 as determined annually by the Florida Legislature.

Taxes paid on slot machine revenues provide another source of proceeds for the EETF. [Section 551.106\(2\), F.S.](#), establishes a tax rate on slot machine revenues of 35 percent and requires that these proceeds go into the EETF.

In addition to transfers into the EETF from lottery proceeds, another source of revenue for the EETF is dealer collection allowances. [Section 212.12\(1\)\(d\)1., F.S.](#), states that sales and use tax dealers that are entitled to a collection allowance as compensation for keeping prescribed records, filing timely returns, conducting proper accounting and remitting taxes on time may elect to donate their collection allowance to the EETF.

The remaining funds from lottery proceeds, after deductions are made to pay prizes and for education programs, are to be used to pay the expenses of running the lottery. If any funds are left unencumbered at the end of each fiscal year, the balance must be transferred to the EETF in accordance with [s. 24.121, F.S.](#)

In [chapter 97-77, L.O.F.](#), the 1997 Legislature established the Florida Bright Futures Scholarship Program, with the intention that all components of the program be funded from the EETF ([s. 1009.53, F.S.](#)). Bright Futures appropriations are funded first, and the remainder of the funds is distributed to the education delivery systems. For 2021-22, 41.3 percent will be distributed to school districts, 8.4 percent to the Florida College System, 21.0 percent to the state universities, 25.9 percent to Bright Futures and 3.5 percent to other student financial need.

As part of the Soundly-Made, Accountable, Reasonable and Thrifty (SMART) Schools Act of 1997, the legislature established a 20-year capital outlay funding program designed to provide approximately \$2 billion in lottery funds to school districts for the construction of permanent classrooms. Under this act, the Classrooms First Program, the Effort Index and Small County Assistance programs were created to alleviate overcrowding in Florida’s public schools and the need for relocatable or portable classrooms. These programs were mainly funded through the issuance of bonds supported by lottery revenues.

Other programs supported by lottery revenues include the Classrooms for Kids and the District Effort Recognition Programs, which were established by the 2003 Legislature to provide funding for class size reduction projects so that school districts could comply with the constitutional provisions for reducing class sizes. To date, the legislature has granted over \$2 billion in fixed capital outlay appropriations funded through the issuance of bonds supported by lottery revenues for this purpose.

**2021-22 PROGRAMS AND PROJECTS FUNDED FROM  
THE EDUCATIONAL ENHANCEMENT (LOTTERY) TRUST FUND**

**PUBLIC SCHOOL SYSTEM**

**CLASSROOMS FIRST AND 1997 SCHOOL CAPITAL OUTLAY BOND PROGRAMS**

EETF: Chapter 2021-36, L.O.F., Specific Appropriation 1: \$28,954,268

Funds in Specific Appropriation 1 are for the cash and debt service requirements of the Classrooms First and 1997 School Capital Outlay Bond programs established in chapter 97-384, L.O.F.

Proviso language allows for funds in Specific Appropriation 1 to be transferred using nonoperating budget authority into the Lottery Capital Outlay and Debt Service Trust Fund, pursuant to section 1013.71, F.S., for the payment of debt service and project expenditures. There is appropriated from the Lottery Capital Outlay and Debt Service Trust Fund an amount sufficient to enable the payment of debt service obligations and projects resulting from these transfers.

During the 20-year period of the 1997 School Capital Outlay Bond Program, over \$2.0 billion in revenue was made available to public school districts for the construction of permanent classroom facilities. See page 34 for the authorized project funding by district. The \$29.0 million appropriation in Specific Appropriation 1 is used to pay the annual debt service obligation on the lottery bonds and to provide cash for projects in districts that elected not to participate in the issuance of bonds. Programs funded from the proceeds are described below.

The Classrooms First Program provided funds to school districts for new construction, renovation, remodeling, repair and maintenance of educational facilities. Funds were allocated as follows: 25 percent based on capital outlay full-time equivalent membership, 65 percent based on growth in capital outlay full-time equivalent (FTE) membership and 10 percent based on the “sum of the years’ digits” formula in s. 1013.64(1)(a), F.S. Districts could use the cash from their share of the appropriation for new construction, renovation, remodeling, major repair, maintenance of educational facilities or to pay debt service on bonds issued by the state on their behalf for these purposes. Proceeds from such bond issues were expended first to provide permanent classroom facilities.

The Classrooms First Program was initiated to fund or partially fund the construction of new schools and additions to existing schools in order to provide permanent classroom facilities. This program has been funded through the issuance of revenue bonds supported by lottery revenues. Lottery-based funds have been encumbered and/or expended by the public school districts for capital outlay projects including the construction of new schools and additions to existing schools, as well as the renovation and remodeling of existing schools.

Also funded from the proceeds were the School Infrastructure Thrift (SIT) Program awards, the Small County Assistance Program and Effort Index grants. The SIT program provided incentive grants to districts for savings realized through functional, frugal school construction. The Small County Assistance Program provided funds to school districts in counties with a population under 75,000 that had an urgent need for a school facility or major school building expansion, repairs and renovations, but lacked sufficient resources over a three-year period to complete such projects. The Effort Index Grant Program provided grants to assist districts that demonstrated a specified level of local funding and still had a need to build new student stations. The funds for these programs have also been fully disbursed by the Florida Department of Education (FDOE) to the qualifying districts.

### **CLASS SIZE REDUCTION LOTTERY - CAPITAL OUTLAY PROGRAM**

EETF: Chapter 2021-36, L.O.F., Specific Appropriation 2: \$128,655,782

Proviso language allows for funds provided in Specific Appropriation 2 to be transferred using nonoperating budget authority to the Lottery Capital Outlay and Debt Service Trust Fund, pursuant to s. 1013.71, F.S., for the payment of debt service. There is appropriated from the Lottery Capital Outlay and Debt Service Trust Fund an amount sufficient to enable the payment of debt service resulting from these transfers.

Additionally, proviso language sets forth that funds provided in Specific Appropriation 2 are for fiscal year 2021-22 debt service obligations on all bonds authorized pursuant to s. 1013.737, F.S., including any other continuing payments necessary or incidental to the repayment of the bonds. These funds may be used to refinance any or all bond series if it is in the best interest of the state.

The Class Size Reduction Lottery Capital Outlay Program, referred to as the “Classrooms for Kids Program,” was established in s. 1013.735, F.S., to provide funding to public school districts for the purpose of meeting constitutional class size reduction requirements. Additionally, the District Effort Recognition Program was established to provide funds to eligible public school districts for capital outlay purposes to reduce class size or for any lawful capital outlay purpose if the class size maximum has been met by a qualifying public school district. The first state appropriation for these programs, in an aggregate amount of \$600,000,000, was approved by the Florida Legislature for fiscal year 2003-04. Additional appropriations of \$654,697,990 for fiscal year 2006-07 and \$650,000,000 for fiscal year 2007-08 were approved by the legislature to fund class size reduction projects. These appropriations were funded through the issuance of revenue bonds supported by lottery revenues, with Specific Appropriation 2 being used to pay the annual debt service obligation on outstanding lottery bonds. Additional funds have not been provided for the program since 2007-08. See page 34 for the authorized bonded project funding by district. For fiscal years 2004-05 and 2005-06, class size reduction appropriations were granted from other revenue sources.

## **FLORIDA EDUCATION FINANCE PROGRAM**

EETF: Chapter 2021-36, L.O.F., Specific Appropriation 7: \$626,929,962

In 1973, the Florida Legislature enacted the Florida Education Finance Program (FEFP) and established the state policy on equalized funding to guarantee to each student in the Florida public education system the availability of programs and services appropriate to his or her educational needs that are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors.

To provide equalization of educational opportunity, the FEFP formula recognizes: (1) varying local property tax bases; (2) varying education program costs; (3) varying costs of living; and (4) varying costs for equivalent educational programs due to sparsity and dispersion of the student population. Section 1011.62, F.S., outlines the formula that must be used to calculate funding through the FEFP.

The FEFP is the primary mechanism for funding the operating costs of Florida school districts. A key feature of the FEFP is that it bases financial support for education upon the individual student participating in a particular educational program rather than upon the number of teachers or classrooms. FEFP funding for school districts is calculated by multiplying the number of (FTE) students in each of the funded education programs by cost factors to obtain weighted FTE student data. This data is then multiplied by a base student allocation and district cost differential to determine the base funding from state and local FEFP funds.

The FEFP has a total appropriation of \$10,066,024,081 that is funded with \$626,929,962 from the EETF, \$9,294,820,217 from General Revenue and \$144,273,902 from the State School Trust Fund.

## **CLASS SIZE REDUCTION**

EETF: Chapter 2021-36, L.O.F., Specific Appropriation 8: \$103,776,356

These funds are provided to implement the requirements of ss. 1003.03 and 1011.685, F.S. For 2021-22, the class size reduction allocation factor is \$984.42 for pre-kindergarten through grade 3, \$939.92 for grades 4 through 8, and \$942.19 for grades 9 through 12. The class size reduction allocation is recalculated based on enrollment through the October 2021 FTE survey, except as provided in s. 1003.03(4), F.S. If the total class size reduction allocation is greater than the appropriation in Specific Appropriations 8 and 91, funds are prorated to the level of the appropriation based on each district's calculated amount. The Commissioner of Education may withhold disbursement of these funds until a district is in compliance with reporting information required for class size reduction implementation.

Class Size Reduction has a total appropriation of \$2,837,752,505 that is funded with \$103,776,356 from the EETF, \$86,161,098 from the State School Trust Fund and \$2,647,815,051 from General Revenue.

### **STUDENT FINANCIAL AID**

#### **FLORIDA’S BRIGHT FUTURES SCHOLARSHIP PROGRAM**

EETF: Chapter 2021-36, Specific Appropriation 5: \$623,261,360

The Florida Bright Futures Scholarship Program serves students graduating from Florida high schools, home education students, General Education Development students and certain out-of-state students who merit recognition of high academic achievement and enroll in an eligible Florida public or private postsecondary education institution.

The Bright Futures Scholarship Program consists of four types of awards: the Florida Academic Scholarship, the Florida Medallion Scholarship, the Florida Gold Seal Vocational Scholarship award and the Florida Gold Seal Career and Professional Education (CAPE) Scholarship. Section 1009.53, F.S., describes the provisions of the scholarship program. There were 120,228 students who received funding for a Bright Futures Scholarship in 2020-21.

In 2021-22, Florida Academic Scholars shall receive an award equal to 100 percent of tuition and applicable fees, for up to five years for a maximum of 120 semester hours (or equivalent) toward the completion of a certificate or a first baccalaureate degree.

Medallion Scholars shall receive an award equal to the amount necessary to pay 75 percent of tuition and applicable fees, for fall, spring, and summer terms. A Medallion Scholar who is enrolled in an associate degree program at a Florida College System institution shall receive an award equal to the amount necessary to pay 100 percent of the tuition and applicable fees.

For Florida Gold Seal Vocational Scholars and Florida (CAPE) Vocational Scholars, the award per credit hour or credit hour equivalent for the 2021-22 academic year shall be as follows:

Gold Seal Vocational Scholars and CAPE Vocational Scholars

Career Certificate Program .....	\$39
Applied Technology Diploma Program.....	\$39
Technical Degree Education Program .....	\$48

Gold Seal CAPE Vocational Scholars

Bachelor of Science Program with Statewide Articulation Agreement.....	\$48
Florida College System Bachelor of Applied Science Program.....	\$48

The additional stipend for Top Scholars shall be \$44 per credit hour. A Top Scholar is a disbursed Florida Academic Scholar in each district who is awarded an additional per credit hour award for fall and spring. Academic Scholars who attend in the fall following high school graduation are ranked based on the product of their Bright Futures weighted GPA and their best college entrance exam score.

## STUDENT FINANCIAL AID

1. 2019-20 Bright Futures Scholarship Program data represents the latest available data at time of publication.

NOTE: The sum of district totals may not equal total due to rounding.

\*Totals correspond to end-of-year reports.

\*\*State total disbursement differs slightly from Office of Student Financial Aid end of year totals due to the timing of the two reports. Furthermore, district sum is \$2,501 less than total because one funded student had no district designation.

\*A total of \$963,242 is disbursed in cash payments annually to selected districts that elected not to participate in the bond sales.

All programs in columns 1 through 5 above are funded through the issuance of bonds.

The debt service obligation on these bonds is payable through lottery funds.

For fiscal years 2004-05 and 2005-06, class size reduction appropriations were granted from other revenue sources and are not included herein.

The purpose of this table is to demonstrate the continuity of General Revenue appropriations for education since the inception of the Florida Lottery. The EETF supplements, but does not supplant, state funding of education through the General Revenue Fund and other revenue sources. This table excludes fixed capital outlay appropriations.

\* Data for this chart are available from OPB/Governor's Office or legislative staff. The FDOE does not have access to LAS/PBS data other than Education.
