

TOP-2

District-Managed Turnaround Plan—Step 2 (TOP-2)

Hillsborough County Public Schools
Giunta Middle School

Due-October 1

District-Managed Turnaround Plan—Step 2 (TOP-2)

Purpose

The purpose of this document is to guide districts to develop a plan for implementation of a district-managed turnaround plan. The district shall provide the Department with the plan for approval by the State Board of Education (SBE).

Directions

Districts shall complete this Step 2 form for each school that is required to implement a district-managed turnaround plan. This completed form must be signed by the superintendent or authorized representative and emailed to BSI@fldoe.org no later than October 1. The subject line of the email must include district name, school name and TOP-2.

School

In the box below identify the name and MSID number of the school that will be supported through the district-managed turnaround plan.

School Name/ MSID Number
Giunta Middle School/ 290052

Needs Assessment

The district is responsible for documenting a needs assessment that uses quantitative and qualitative data to identify the needs of the school system, including needs identified by families and the community.

The summary of the needs assessment results must address points of strength and opportunities for growth in the school system (at both the district and school level) in each of these three domains:

1. Accountable and Shared Leadership
2. Standards-based Instruction and Learning (for student and adult learners)
3. Positive Culture and Environment

In the box below, describe the methodology used for the needs assessment, including 3-year data trends from the state, district, and school levels. Include a review of all strategies to determine which are improving the school and should be reinforced or supplemented, as well as which strategies are not resulting in improvement.

Describe the methodology used for needs assessment, including 3-year data trends from the state, district, and school levels.

FSA Proficiency Percentages (School years 18-19/17-18/16-17)

	ELA Prof	ELA Gains	ELA BQ	Math Prof	Math Gains	Math BQ	Science	Social Studies	Accel	Grade %
District	55/54/53	55/54/54	43/42/42	56/56/55	57/57/56	44/44/42	56/56/54	72/70/72	82/83/84	60/59/58
Giunta	26/25/27	40/36/41	41/38/38	27/27/32	41/38/53	40/39/55	23/18/28	39/36/44	64/57/75	38/35/44

District-Managed Turnaround Plan—Step 2 (TOP-2)

Early Warning System Data (School years 18-19/17-18)

	Average Daily Attendance 18-19/17-18	% Incidents resulting in OSS 18-19/17-18	Attendance Above 90% 18-19	% with Zero Suspensions 18-19	Passed all ELA and Math courses attempted
District			85	91	80
Giunta	91.9/92.7	12.5/21.1	77	67	85

Teacher Climate Data – Teachers utilized a new survey this year. Only one year of data will be shown. Results show as percentage of positive responses.

	Time	Facilities & Resources	Community Support & Involvement	Managing Student Conduct	Teacher Leadership	School Leadership	PD	Instructional Practices and Support	Restorative Practices and School Environment
District	69	82	84	77	82	82	85	87	90
Giunta	65	82	65	64	71	70	74	78	86

Student and Parent Climate Data – Results shown as percentage of positive responses.

	Student Survey			Parent Survey				
	I feel safe at school. 18-19/17-18	My teachers help me stay on track to reach my goals. 18-19	I am proud to attend this school. 18-19/17-18	My concerns are addressed in a timely manner. 18-19/17-18	I am encouraged to be involved in my student's learning. 18-19/17-18	Teachers require students to work hard. 18-19/17- 18	I fell welcome at this school. 18-19/17-18	My student is safe at this school. 18-19/17-18
District Elementary	75/75	86	79/81	76/85 7%/10% Response Rate (RR)	77/87	84/89	81/88	82/87
District Secondary	56/52	60	55/55					
Giunta	45/39	63	48/41	44/na 2% RR	67/na	56/na	56/na	67/na

Identify strategies that have evidence of improvement at the school and how they will be reinforced or supplemented. Identify strategies that have not resulted in improvement. What will be done differently?

Much of our work is guided by our partnership with the University of Virginia (UVA). The HCPS partnership with UVA has impacted our way of work with schools, especially as it relates to high need schools. UVA is assisting us, through leadership development, to improve school systems and conditions through four main levers of change. These levers are: Leadership, Differentiated Support and Accountability, Talent Management, and Instructional Infrastructure. Our way of work has been impacted through the strengthening

of strategies that have shown success, as well as adopting new strategies to address areas in need of improvement.

LEADERSHIP - Systems require that will and capacity to prioritize what is necessary to improve the lives of children they serve and present a clear vision for the path ahead.

Turnaround Leadership Pathways Principal Pipeline

A recent study of principal pipelines by the RAND Corporation found that after three or more years, schools with newly placed principals in pipeline districts outperformed comparison schools academically (6.22 percentile points in reading and 2.87 percentile points in math). Additionally, principal pipelines supported increased principal retention. RAND reported that districts with principal pipelines had almost eight fewer losses for every 100 newly placed principals than other districts in the state with no pipeline. Hillsborough County Public Schools was one of the districts included in the study. RAND noted that “**we found no other comprehensive district-wide initiatives with demonstrated positive effects of this magnitude on student achievement.**” The study results also elaborated on the disruptive impacts of principal turnover – disruptive to teachers, students, and budgets.

Hillsborough County’s Turnaround Leadership Pathways (TLP) sets the stage for school success. Our TLP program is designed to train and develop teachers and leaders who will work in our high-need schools, centered on the core belief that leadership is the key lever for change in schools and sets the foundation. This strategic staffing initiative prides a targeted preparation and support program for leaders of high-need schools.

The HCPS TLP focuses on developing teachers and developing administrators. Hillsborough County has developed partnerships with the University of South Florida and the University of Tampa to support the TLP initiative. We have partnered with the University of Tampa to prepare instructional staff for leadership in high-need schools through a master’s degree program with a focus on high-need schools. We have partnered with the University of South Florida, and the Wallace Foundation, to prepare administrators for leadership in turnaround schools through an educational specialist degree in educational leadership, with an emphasis on leadership in turnaround schools.

DIFFERENTIATED SUPPORT AND ACCOUNTABILITY - System leaders must provide schools with the capacity-building, support, accountability, and flexibility needed to achieve urgent change.

Achievement Schools Initiative

Achievement Schools receive unprecedented support in our district, leveling the playing field for students. These schools receive intense district level support and resources, and are staffed by experienced, effective teachers and leaders. Fifty schools have been identified, and are divided into five Small Learning Networks. These schools have been selected based on past performance data, and will remain a part of the initiative until three straight grades of “C” have been earned.

During the 18-19 school year, 26 of our Achievement Schools were identified for DA, with 19 of those schools implementing a Turnaround Plan. This year, the number of Achievement Schools identified for DA has been reduced to 22, with 12 of those implementing a Turnaround Plan.

District-Managed Turnaround Plan—Step 2 (TOP-2)

Stakeholder commitment and involvement has been a priority. Stakeholder groups meet regularly, and remain in direct contact with individual schools as well as district leadership. Stakeholder groups include parents, students, teachers, community members, and HCPS administrators.

TALENT MANAGEMENT - Creating an environment for success requires having the right people in place to carry out the work.

Spark

The Spark initiative is a newly designed program to provide teachers with additional incentives to work in our Achievement Schools. Teachers will earn bonus pay ranging from \$3,600 to \$7,500 annually. An additional \$4,500 will be offered to teachers with National Board Certification. Teachers in Achievement Schools can now also received discounted before and after school care through our HOST program.

HR Hiring Practices

HCPS hiring practices continue to be updated and revised to support all high-need schools. VAM scores are continually tracked, and predictions are utilized to help schools make informed staffing decisions. In an effort to fill all positions, new strategies have been put in place. New talent is being attracted through a variety of methods, including targeted recruiting efforts, early job fairs, streamlined application and hiring processes, and the new Spark Teacher Incentive program. Additionally, schools are now provided with additional teacher units to allow for “over” hiring. It is believed that this effort will reduce vacancies related to natural attrition and movement of teachers related to VAM scores.

INSTRUCTIONAL INFRASTRUCTURE - A core component involves data-driven instruction to create an evidence-based approach to better serve students. This includes a high-quality curriculum.

Classroom Libraries focused on diversity

The Division of Teaching and Learning has provided for all classrooms exemplar classroom libraries that contain quality reading material with an emphasis on reflecting the diversity of our study body. These libraries contain reading materials reflecting the rigor of the Florida Standards and are organized into classroom library sets uniquely designed for HCPS. Hollie (2015) notes that one challenge in infusing culturally responsive text into academic literacy instruction is what he terms, “slim pickins.” Hollie writes that “a good culturally authentic book is hard to find.” These classroom libraries, and the selections they contain, are an effort to provide students with access to quality, culturally relevant texts that support rigorous language arts instruction.

Literacy

HCPS has embraced several initiatives designed to increase literacy and ELA proficiency. Those initiatives are described below, and include a curriculum audit, a district advisory team, an Achievement Schools literacy plan, and programs selected for supplemental supports.

HCPS has contracted with the Public Consulting Group, Inc. (PCG) to complete an ELA curriculum audit, including an overview of student performance, a review of current literacy practices and programmatic strengths, and areas for improvement at the district level. PCG will complete a document and data review and will also gather data from stakeholder surveys, interviews, and focus groups. The audit will include the

District-Managed Turnaround Plan—Step 2 (TOP-2)

written curriculum as well as assessments and taught curriculum. The audit began in May, and is scheduled to be completed by the end of December, 2019. Results of this audit will guide future efforts.

HCPS has also formed a District Literacy Advisory Team, consisting of a variety of stakeholders, including district level employees, principals, teachers, parents, volunteer organizations, and public service organizations. The purpose of this group is to support literacy community-wide. The vision of the District Literacy Advisory Team is to prepare students of all ages to be literate members of society. The goal is for 80% of third graders to score a Level 3 on FSA ELA by 2023. The Team has several workgroups, including Leadership, Early Literacy, Parent and Community Involvement, Student Engagement and Motivation, Teacher Practice, and Media Literacy/Technology.

HCPS is also focused on improving literacy in Achievement Schools by addressing and strengthening time and scheduling, core instruction, supplemental supports and interventions, and planning. Our new Achievement Schools Literacy Program includes 120 minutes of reading, 60 minutes of writing, and 60-90 minutes of math. Every student will be on a data-driven achievement plan with the goal of having every student on grade level by the end of the school year. Instruction will be driven by common curriculum maps (scope and sequence), and assessments. Teachers will be provided with common times for planning. District content coaches will support schools, and all school based coaches will receive additional professional development around coaching and supporting teachers.

A pilot program will be implemented in Achievement Schools utilizing **EL Education** (Expeditionary Learning). EL Education is a national K-12 nonprofit delivering a new vision for education with the needed resources. EL Education is currently working with over 260,000 students in over 550 schools in 35 states. The K-2 curriculum offers two hours per day of content-based literacy, plus one hour of structured phonics. Phonics instruction is an evidence-based approach, with a .54 effect size as reported by Fisher, Frey, & Hattie (2016). The 3-5 curriculum offers two hours of content-based literacy instruction per day with an additional time for Life Science. EL Education is founded on three dimensions of student achievement: mastery of knowledge and skills, character, and high-quality work. The EL curriculum includes support for differentiation, providing supports and resources for students with disabilities as well as English Language Learners (ELLs). A study conducted by Mathematica Policy Research (utilizing i3 grant funds) indicated that students, supported by teachers using EL Curriculum and participating in aligned professional development, outperformed their district peers – for all subgroups (Black, Latinx, White, economically disadvantaged, special needs). The study further indicated that gains made were sustainable. Results of this pilot will guide future expansion and implementation efforts.

Phonics and phonemic awareness will be addressed at all Achievement Schools through the implementation of supplemental programs: **Blast Foundations Program** for K and 1 and **Words Their Way** for all 2-5 classrooms. The Blast Foundations Program was piloted last year in two Achievement Schools with the support of the HCPS Elementary Reading Department. This hands-on, multi-sensory program aligned with Florida Standards, and helped students develop foundations to support life-long reading. Words Their Way has been utilized in HCPS, again with the support of the HCPS Elementary Reading Department. This supplemental program focuses on phonics, spelling, and vocabulary. Instruction is aligned with the five developmental stages of spelling: Emergent-Early Letter Name, Letter Name, Within Word Pattern, Syllables and Affixes, and Derivational Relations.

iReady and **iLAFS** will be utilized in every classroom. The research base for iReady and iLAFS has been clearly illustrated, and iReady formative testing is closely correlated with FSA performance. **Discovery Streaming** will provide students access to multi-media and additional engaging texts, and will provide

District-Managed Turnaround Plan—Step 2 (TOP-2)

teachers access to collaboration. Discovery Streaming is a comprehensive and supplemental digital service that builds students' mastery in interpreting, understanding, and evaluating information across all subject areas. Students can access a variety of digital assets including images, primary source documents, podcasts, oral interviews, books on tape, articles, videos, and more. **Leveled Literacy Intervention (LLI)** will be implemented to support extended learning opportunities. LLI is a short-term intervention that provides daily, intensive, small-group instruction, supplementing classroom literacy teaching. HCPS has utilized this reading intervention successfully in targeted high-need schools. Extended learning teachers (tutors) will be provided through the district office. Week-long training will be provided to all vetted tutors who will begin pushing into schools by week two.

ADDITIONAL STRATEGIES

Parent/Community Liaison

A unit specifically defined as a Parent and Community Liaison has been created to support high need schools. The purpose of the Parent Liaison is to empower families to become collaborative, effective advocates for their child, and to promote academic and social success in school and within the community. As reported by Hattie, parent involvement has an effect size of .49, within the top influencers of academic achievement. Bryk's research on school improvement defines parent involvement as one of five essential elements. Our schools are supported by the HCPS Parent and Family Engagement Team in their efforts to improve collaboration between the school and the families/communities they serve.

Stakeholder Involvement

The HCPS Literacy Advisory Team is comprised representatives from a variety of stakeholders groups (see above). The purpose of this group is to engage stakeholders to support literacy community-wide. One sub-group of this Team is solely devoted to Parent and Community Involvement, focused on increasing engagement around the concept of literacy for all. This includes stressing the importance of literacy as well as providing information on how various stakeholders can support literacy.

Stakeholder commitment and involvement has been a priority for our Achievement Schools as well. Stakeholder groups meet regularly, and remain in direct contact with individual schools as well as district leadership. Stakeholder groups include parents, students, teachers, community members, and HCPS administrators.

Implementation Plan

Part A. Summarize the district-managed turnaround plan and describe how the needs assessment results will be addressed in each of these three domains:

1. Accountable and Shared Leadership
2. Standards-based Instruction and Learning (for student and adult learners)
3. Positive Culture and Environment.

District-Managed Turnaround Plan—Step 2 (TOP-2)

Part B. In this plan, verify that each assurance outlined in the TOP-1 form for district-managed turnaround has been addressed.

Part A.

Accountable and Shared Leadership

The principal is held accountable through a series of Dept. of Education, Area Leadership Team, and Principal Coach Meetings, fidelity walks, and coaching conversations which are held on a weekly basis. Teachers are monitored through ongoing observation and feedback processes, which provides them with both corrective and supportive action steps. Instructional coaches lead the work on the content/instructional aspect and team leaders facilitate the managerial components of the School Community.

Standards-based Instruction and Learning (for student and adult learners)

Professional Development is being offered in the area of Crafting Targets for Teacher Clarity (What and Why) and Target and Task Alignment. In the first of the two trainings, which is focused on Crafting Targets, teachers will learn how to write learning targets that align with their content area and in turn correlate with the Florida Standards. This PD will ultimately clarify for students the purpose for learning (why). In the second training teachers will learn how to ensure that the Learning Target aligns with the Task students are expected to complete. These two trainings will positively impact student achievement by instructing students and teachers on appropriate learning targets aligned with our Florida Standards. We will monitor the impact of these trainings through frequent targeted walk-throughs and the observation and feedback cycles.

Positive Culture and Environment.

When all stakeholders feel valued and included in school happenings and decision-making, overall culture and climate will improve. Teacher retention will improve through the on-boarding supports that will be provided to new teachers. Students will be explicitly taught expectations, and these expectations will be reinforced consistently via incentives and SEL. Providing Social Emotional Learning opportunities for students regularly will provide them with the tools to successfully manage emotions and allow for positive social experiences. Shared decision-making among Faculty will increase buy-in and participation in school initiatives and function.

Part B.

HCPS has met all of the following assurances, as outlined in the TOP-1.

Explain the correlation between the School Improvement Plan (SIP, annual school plan) and this proposed district-managed turnaround plan (TOP-2, 2-year district plan). Describe how the district and school leadership team are working together to implement the plans to improve the school.

District-Managed Turnaround Plan—Step 2 (TOP-2)

Correlation between SIP and TOP-2:

The following items correlate the SIP and TOP-2:

1. School-wide implementation of PBIS with fidelity (e.g. token economy, explicit teaching of core values quarterly and intermittent incentives).
2. New Teacher On-Boarding Process throughout year tailored to their needs.
3. Grade Level assemblies at the start of each Semester to reinforce expectations.
4. Implementation of Social Emotional Learning
5. Shared Decision-making, when appropriate, via Committees, Leadership Team, PLC's.
6. Consistently implementing Discipline Plan across grade-levels
7. Increased opportunity for Family and Community involvement via building partnerships within the community, School Advisory Committee, more frequent communication with Families, etc. Parent liaison will assist and manage Parent Room resources.
8. Success Coach will work directly with and monitor students identified through EWS/KPI's (2 or more high risk indicators) to enable optimum success for targeted students.
9. MTSS/Data Coaches will coordinate Tier 2 and 3 interventions (academic and behavioral). ELP tutoring, Saturday Boot Camps, and T-Payroll funded targeted Tier 3 interventions will be built into school day for targeted population.
10. Utilize substitutes to allow teachers to participate in data dives.
11. Creating Conscious Classroom PD will be offered.
12. Increase opportunities to explicitly recognize and reward Faculty.

Describe how the district and school leadership team are working together to implement the plans to improve the school.

The Area Leadership Team, under the supervision of the Area Superintendent, plans monthly Learning Walks with the school leadership team. During this time, the team meets to discuss data, celebrate any successes, and assist in problem solving concerns. Using identified look-fors based on our instructional priorities, the team observes several classes and provides feedback and suggests next steps. The Area Superintendents provide direct access to additional district supports.

The principal, Cindy Land, will be supported by Dennis Mayo, Deputy Director, Area 5. Dennis Mayo was a former middle school principal at Turkey Creek Middle, a title 1 school with similar demographics to Giunta. He helped advanced the grade at Turkey Creek to an A from a C during his tenure. He then served as a principal coach to first and second year principals and was then assigned as Deputy Director to Area 5. He will provide intensive coaching and support to Cindy and the Giunta Leadership Team two days per week. This will include but not limited to the following:

- side-by-side walkthroughs followed by teacher feedback on core instruction
- planning of site-based PD and follow-up coaching (with support of PD specialist)
- implementation of school improvement strategies
- ongoing progress monitoring through data chats
- observation and feedback of instructional leadership team meetings and admin meetings
- implementation of MTSS/RTI interventions

District-Managed Turnaround Plan—Step 2 (TOP-2)

In addition to Dennis' support, the district will provide weekly on-site coaching of ELA and Math teachers by on the ground academic coaches. Middle school Principals of schools who have had recent turn around success (April Gillyard, Memorial Middle, Anthony Jones, Sligh Middle, and Andrew Olson, Greco Middle, will provide monthly peer coaching support following site visits to Giunta.

Giunta will be placed in tier 4 of the Achievement Schools Model. Giunta will be monitored by the AS Leadership Team and will be provided the same resources, training and supports. Yinka Alege (AS Leader with turn around experience and leader who supported Sligh Middle School last year in their improvement from D to C) will be paired with Dennis Mayo to make sure AS expectations and supports are provided.

District-Managed Turnaround Plan Assurances

The district must agree to ALL of the following assurances by checking the boxes below.

Assurance 1: District Capacity and Support

- The district shall ensure the district leadership team, which includes the superintendent and district leadership, has an integral role in school improvement. This team may include those in charge of curriculum, general and special education, student services, human resources, professional development and other areas relevant to school improvement. The district leadership team shall develop and implement the district-managed turnaround plan. The district shall dedicate a position to lead the turnaround effort at the district level. The selected employee shall report directly to the superintendent and support the principal.
- The district shall ensure that instructional programs align to Florida's Standards for English Language Arts (ELA), mathematics, social studies and science. The district shall provide the evidence that shows instructional programs to be effective with high-poverty, at-risk students and how they are different from the previous programs. The district shall demonstrate alignment of Florida's Standards across grade levels to improve background knowledge in social studies, science and the arts.
- The district shall prescribe and require progress monitoring assessments that are aligned to Florida's Standards in ELA, mathematics, social studies and science for all students. The district shall ensure that its progress monitoring assessments are predictive of statewide assessment outcomes and provide valid data to support intervention and acceleration for students.

Assurance 1: Narrative of District Capacity and Support

In the box below, the district should provide information about its systems that support school leadership teams to implement turnaround interventions, including the following: alignment and allocation of

District-Managed Turnaround Plan—Step 2 (TOP-2)

support and resources, policies and practices, governance systems for review and monitoring. At a minimum, the narrative shall address the following:

1. Describe the district leadership team and its role in implementing the DMT plan.
2. Explain how the district allows for flexibility in areas such as staffing, scheduling and budgeting, to fully implement a comprehensive approach to substantially improve student achievement outcomes.
3. Identify how the new or revised instructional programs align to Florida’s Standards for ELA, mathematics, social studies and science; the research that shows it to be effective with high-poverty, at-risk students; and how they are different from the previous programs.
4. Identify progress monitoring and summative assessments aligned to Florida’s Standards that will be used in the school.
5. Based on the analysis of progress monitoring and summative assessment data, describe any changes that will be implemented to provide continuous support for the school.
6. Explain the district’s allocation of supports and resources and how they align to the specific needs of the school.
7. Identify and describe the district policies and practices that will need to be reviewed and changed to support the school.
8. Describe the system that the district will put in place to review and monitor the effectiveness of the support.

Assurance 1: Narrative of District Capacity and Support

Describe the district leadership team and its role in implementing the DMT plan.

Our Achievement Schools, including D.A. schools, under the direction of the Assistant Superintendent of Educational Leadership and Professional Development along with the Chief of Schools, are supported by an Area Superintendent, ESE Supervisors, District ESE Resource Teachers and Staffing Coordinators, School Improvement, District content area coaches and instructional mentors, and Area coaches (including principal coaches). Support also includes The Deputy Superintendent for Instruction, The Deputy Superintendent of Operations, the Assistant Superintendent for Academic Support and Federal Programs, The Chief Diversity Officer, The Chief Academic Officer, and is continued through representatives from every division in the district.

Explain how the district allows for flexibility in areas such as staffing, scheduling and budgeting, to fully implement a comprehensive approach to substantially improve student achievement outcomes.

Principals have autonomy and flexibility in many areas. Principals hire their own staff, and work with HR through established procedures to maintain an appropriate staff. While bell schedules are established by the district, schools can utilize the waiver process to allow for scheduling changes. Principals have decision-making control over their internal budgets, Title I budgets, and UniSIG budgets. While principals may collaborate with their Area Superintendents regarding budget expenditures, the ultimate responsibility for decision making lies with the principals.

Identify how the new or revised instructional programs align to Florida’s Standards for ELA, mathematics, social studies and science; the research that shows it to be effective with high-poverty, at-risk students; and how they are different from the previous programs.

District-Managed Turnaround Plan—Step 2 (TOP-2)

iReady will be utilized to support Florida Standards instruction in both ELA and Mathematics. iReady provides an adaptive growth measure as well as three diagnostic assessments each year, provides rigorous and aligned on-grade level instruction and practice, provides teachers with additional downloadable lessons designed to meet the needs of individual students, personalizes student instruction based on unique areas of need, and provides numerous reports for progress monitoring. iReady diagnostic results are highly correlated to FSA, with overall correlations for grades 3-8 ELA and Mathematics ranging from .74 to .87, exceeding recommended thresholds for correlations. For schools with Title I status, a high percentage of minority students, or large free- or reduced-lunch populations, those that used Ready Instruction also had significantly higher percentages of students achieving proficiency. With the district's inclusion of the Ready classroom instruction materials for our school, iReady represents an effective blended learning program, with student academic growth exceeding that of typical students of comparable ability.

We will add iReady and Ready Mathematics, as well as the online Teacher Tools to support continued growth in Mathematics. Bryan will also be more fully utilizing Kagan collaborative learning strategies.

i-Ready and Ready are backed by timely research conducted in diverse educational settings. This research meets the criteria for ESSA Level 3 evidence, qualifying these programs for School Improvement funding. Hillsborough County has relied on the FSA Linking Study to support the continued use of iReady.

Kagan strategies are supported by a plethora of research, with positive outcomes linked to academic achievement, critical thinking, character, social skills, emotional intelligence, and support for diversity. Wong (2014) described cooperative learning as a “bully buster” because of its reliance on cooperation and pro-social behaviors. Kagan strategies have also been linked to a closing of the achievement gap.

Identify progress monitoring and summative assessments aligned to Florida's Standards that will be used in the school.

iReady diagnostic testing (three times annually) in both ELA and Mathematics will be used to progress monitor throughout the school year. District formative exams will also be utilized in ELA, Mathematics, and Science. iReady diagnostic testing is used at the end of the year as a summative measure for Grades 1 and 2. WIDA is administered to ELL students. FSA testing is the paramount summative measure of student achievement.

Based on the analysis of progress monitoring and summative assessment data, describe any changes that will be implemented to provide continuous support for the school.

Additional content area coaches/resource teachers will provide additional support for teachers, helping to build capacity in planning and delivering lessons aligned to the standards with appropriate rigor. This support will also include data analysis, necessary for making adjustments throughout the school year. A change in how schools are supported by the Area Superintendents allows for much more attention to our chronically under-performing schools, with more direct access to additional district supports. The new Achievement Schools' structure was described in detail in the TOP Step 1 document, and is repeated here:

District-Managed Turnaround Plan—Step 2 (TOP-2)

We will continue our new support structure, Achievement Schools (including D.A. schools), is in an effort to apply the district's policy on equity in a systemic way. Our goal is to keep schools out of Differentiated Accountability, therefore with no need for a state Turnaround Plan. Achievement Schools will focus on chronically under-performing schools. The Achievement Schools will be staffed by experienced and highly effective leaders. Regular collaboration and coordination with Human Resources and the teacher's union will support our quest to staff these schools with experienced, highly effective teachers. The district will implement a support structure that prioritizes the needs of the Achievement Schools for human capital management, operations, facilities and instructional decisions. Each principal supervisor will be assigned a fewer number of schools, designed to consolidate and streamline decision making and support for our highest needs schools. This will help to facilitate and expedite communications around supports and interventions need for our highest needs schools. We will be redirecting current resources and supports to schools that need them the most, thus implementing equitable practices.

HCPS is working to provide disaggregated data (subgroup data) to schools for the iReady diagnostic results. This will help as we work to refine and pointedly direct our own school improvement efforts. FSA and ESSA subgroup data will further help to inform our efforts at closing achievement gaps.

Explain the district's allocation of supports and resources and how they align to the specific needs of the school.

HCPS held the Showcase of Achievement Schools event, inviting and recruiting new and current teachers to be a part of our Achievement and D.A. Schools. Principals and their leadership teams did interviews on the spot and were able to offer positions in areas such as math, science, English, reading and Exceptional Student Education. The event was overseen by Human Resources.

HR practices have been modified to support hiring the best and brightest teacher talent at our D.A. schools by filling vacancies at those schools with the most qualified candidates first. HR also tracks, throughout the year, all teachers with a state VAM score of NI/U to ensure that D.A. schools maintain the appropriate teaching force as defined in D.A. legislation. This includes the monitoring of teaching movement during pool periods. An extended transfer period for instructional vacancies was created for our Achievement Schools (including D.A. schools) to allow for transfers from non-Achievement (D.A.) schools, no transfers between schools, and no transfers out of Achievement (D.A.) schools (unless it is an administrative transfer or required for compliance with state mandates). Two advertised hiring fairs were targeted specifically to these schools as well, with invitations purposefully targeting highly effective teachers across the district.

Achievement Schools will continue to implement a model new to HCPS last year, the Learning Specialist Model. The impetus for this pilot project is to improve outcomes for students with reading disabilities by providing a skilled interventionist with expert knowledge to administer diagnostic assessments and implement explicit, systematic multi-sensory reading interventions. The Learning Specialist will also facilitate the deepening of reading intervention knowledge for all teachers through a more organic and job-embedded approach. A currently allocated VE position will be utilized as the Learning Specialist with an additional Exceptional Student Education paraprofessional allocated to support the model.

Approximately ten elementary Achievement Schools/D.A. schools will be targeted for participation in the

2018-2019 pilot project. This project is being supported through our Exceptional Student Education department.

The Superintendent and Cabinet met with each principal prior to the start of the new year. At that time, principals were asked what additional resources they felt were necessary to meet the needs of the school. Every attempt was made by the district to provide those resources supported by an attitude of “getting to yes.” Throughout the year, the Area Superintendent serves as the main point of contact for allocation of additional supports for individual schools. Area Superintendents meet regularly as they align their work and problem-solve around issues and barriers.

Identify and describe the district policies and practices that will need to be reviewed and changed to support the school.

Achievement Schools, including D.A. schools, will be supported in an effort to level the playing field for students. Our district will put its best leaders and teachers into our schools with the highest needs and provide the right resources to schools for sustained student success. We will create an innovative and collaborative learning environment that will center around a culture of high expectations for students.

We know what it takes to improve achievement, and we’re implementing it with fidelity and equity. Our district is making bold decisions with school leaders and teachers and ensuring the right people are put in the right places.

Then and now: Our district has been using an area model with 8 area superintendents. Each area superintendent has been creating their own individual strategy resulting in diluted district support. Under the Achievement Schools model, there will be a centralized support system and focused strategy to provide more resources to our highest needs schools.

Then and now: We’ve now had a deeper conversation about equity and a School Board Equity Policy is in place. With past processes – like *STAR* and *Focus* – schools were identified as needing help, but the district’s structure and way of work weren’t cohesively organized to make those schools a priority. With *Elevate*, district systems weren’t in place to achieve equity. Under the area model the past two years, the district utilized a team approach to better provide support to schools. Progress has been made. In order to now get more dramatic increases in achievement, our district is pulling together the highest-needs schools and aligning resources to accelerate achievement through a core district strategy. Achievement Schools, including D.A. schools, will all be given an increased level of support and increased responsiveness to schools’ needs. Our district’s laser-focus on equity and training began last year at the Leadership Institute with four structures that lead to equity: *human conditions*, *structural conditions*, *learning conditions*, and *conditions for hope and realized dreams*. Our Board’s Equity Policy is the driving force behind the work to implement these procedures.

Then and now: HR practices have been modified to support hiring the best and brightest teacher talent at our D.A. schools by filling vacancies at those schools with the most qualified candidates first. HR also tracks, throughout the year, all teachers with a state VAM score of NI/U to ensure that D.A. schools maintain the appropriate teaching force as defined in D.A. legislation. This includes the monitoring of teacher movement during pool periods. An extended transfer period for instructional vacancies was created for our Achievement Schools (including D.A. schools) to allow for transfers from non-Achievement (D.A.) schools, no transfers between schools, and no transfers out of Achievement (D.A.) schools (unless it is an administrative transfer or required for compliance with state mandates). Two

District-Managed Turnaround Plan—Step 2 (TOP-2)

advertised hiring fairs were targeted specifically to these schools as well, with invitations purposefully targeting highly effective teachers across the district.

Then and now: Unit assignments used to be largely formula-driven. Now, unit assignments will be based on need. Achievement Schools, including D.A. schools, will receive additional support personnel, including psychologists, social workers, academic coaches and resource staff.

Assurance 2: School Capacity-Leaders and Educators

X The district shall ensure the school has effective leaders and educators capable of improving student achievement.

Leaders

X The district leadership team, in collaboration with the school, shall develop an annual professional development plan that provides ongoing tiered support to increase leadership and educator quality.

X The district shall ensure the principal and assistant principal have a successful record in leading a turnaround school and the qualifications to support the student population being served.

X The district shall ensure that the principal will be replaced, unless recommended for retention in collaboration with the Department, upon entry into district-managed turnaround based upon the individual's turnaround record and degree of success, the length of time since turnaround success, the degree of similarity in the student populations and any other factor that would indicate the principal will have turnaround success with this school.

Educators

X The district shall ensure it has reviewed practices in hiring, recruitment, retention and reassignment of instructional personnel with priority on student performance data.

X For districts with more than five schools, the district shall ensure that the percentage of instructional personnel assigned to a Differentiated Accountability (DA) school with a rating of either Unsatisfactory or Needs Improvement, based on the most recent three-year aggregated state Value-added Model (VAM), is less than the district average. For districts with five or fewer schools, the district shall ensure that the percentage of instructional personnel assigned to a DA school with either a rating of Unsatisfactory or Needs Improvement, based on the most recent three-year aggregated state VAM, is less than the state average.

X The district shall ensure the instructional staff who do not have a state VAM rating and who do not show evidence of increasing student achievement are not rehired at the school.

X Pursuant to section 1012.2315(2)(a), F.S., the district must ensure that the percentage of temporarily certified teachers, teachers in need of improvement or out-of-field teachers assigned to the school is not higher than the district average.

Assurance 2: Narrative of School Capacity-Leaders

In the box below, the district must provide information about its systems to ensure the school has an effective administrator capable of leading the turnaround efforts, including desired experience and competencies, recruitment and retention incentives and operational flexibility. At a minimum, reply to the following:

1. Has the principal been retained or replaced? Include the principal’s name and start date, selection process and leadership experience.
2. Provide evidence that indicates the principal and assistant principal have a proven record of success in turnaround schools and the qualifications to support the community served.
3. Will other members of the school leadership team be retained or replaced and when? Explain the team’s turnaround experience.
4. Does the district offer incentives to attract and retain principals willing to lead a turnaround school?
5. How does the district build the capacity of turnaround leaders?
6. What operational flexibility will be afforded to the principal, such as the degree of input in selecting their school leadership team and instructional staff?
7. What actions will the district take regarding the school leadership team after the first year of this plan if the school’s grade does not improve?

Assurance 2: Narrative of School Capacity- Leaders

Has the principal been retained or replaced? Include the principal’s name and start date, selection process, and leadership experience.

Cynthia Mendoza Land began her career at Giunta Middle School on August 26, 2019. She applied to the position several weeks prior to being transferred. Prior to being principal of Giunta, I was principal at Turner/Bartels Pre-K-8 where I was successful at increasing our test scores for the lowest quartile for two years consecutively, moving from 39%-46% in ELA gains. In addition math learning gains increased from 39%-44%. Middle school acceleration points increased from 86 to 90. FSA Geometry EOC was 100%, and school grade increased from 546 points in 2017 to 553 points for 2018. At Pride, I was able to increase test scores to an all-time high in the 2015-2016 school year. This was through much data disaggregation and strategy. All of my teaching experience has been at Renaissance and Turnaround schools.

Provide evidence that indicates the principal and assistant principal have a proven record of success in turnaround schools and the qualifications to support the community served.

As stated above, Cindy Land made major gains at both Turner/Bartels Pre-K-8 and Pride Elementary. She was sent to Turner/Bartels to strengthen academics and school culture which were evident in her results after 2 years.

Henrissa Berry started at Giunta most recently on August 26, 2019. Prior to coming back to Giunta she was an Assistant Principal at Orange Grove Middle Magnet School of the Arts for 4 years. Prior to going to Orange Grove she served as a Teacher, Counselor and Assistant Principal for Curriculum at Giunta. As an Assistant Principal at Giunta from 2010-2015, she oversaw the Instructional Leaders and facilitated the turn-around process resulting in the school going from consistent “D” school grades to consistent “C” school grades in 2014 and 2015 respectively.

District-Managed Turnaround Plan—Step 2 (TOP-2)

Kris Hawkins is a Tampa native and proud graduate of Hillsborough County Public Schools. She received her degree in Varying Exceptionalities from University of South Florida and her Master's Degree in Educational Leadership from Saint Leo's University. Ms. Hawkins served as an ESE Teacher and ESE Specialist in the District prior to working at Pierce Middle School and Barrington Middle School as an Assistant Principal prior to returning to Giunta in 2018.

Phillip Riley attended Tuskegee University for undergrad and received a Master's in Educational Leadership from National Louis University. He has worked as an educator in Hillsborough county for 24 years, and has served as an Assistant Principal for 13 years working at Turkey Creek, moving the school from a D to a B, Burns, and now Giunta Middle School.

Will other members of the school leadership team be retained or replaced, and when? Explain the team's turnaround experience.

Vanessa Harvin received her Bachelors of Science in Elementary Education at the University of South Florida, and a Masters of Science in Educational Leadership from Nova Southeastern University. She has been an educator in Hillsborough County for 22 years, teaching math for 12 years in grades 6-8. She is now the Math Coach at Giunta Middle School.

Does the district offer incentives to attract and retain principals willing to lead a turnaround school? How does the district build the capacity of turnaround leaders?

Hillsborough Principal Pipeline: We all win when our principals and teachers are empowered and provided with the right support. And we all benefit when our students are better prepared for college or a career. With these goals in mind, Hillsborough County Public Schools is transforming the way we identify and train our aspiring leaders, through the Hillsborough Principal Pipeline. From the beginning of the Pipeline, with the Future Leaders Academy, or at any point in between, strong and long lasting relationships are built with current and future leaders, all of whom will become part of a support network that includes mentors, coaches and fellow participants.

Through the Hillsborough Principal Pipeline, current and future school leaders gain valuable skills to help them lead a school to success. They also develop new perspectives and become part of a close-knit network that they can tap into throughout their career. Quality schools require quality personnel. Principals and Assistant Principals are matched to complement each other's leadership skills based on the HCPS School Leader Competencies and Key Elements Matrix. A principal coach, a veteran principal with a track record of success, is assigned to support all new school principals. A principal coach will also be assigned to support principals at D.A. schools.

Pipeline participants engage in professional development courses that include both leadership and technical training aligned with state leadership standards and District leadership competencies. The program prepares current and future school leaders to effectively serve as *instructional leaders, managers of human capital and organizational/systems leaders*. The Hillsborough Principal Pipeline offers the unique and valuable opportunity for teachers to experience and prepare for a school leadership position by helping them gain the skills, experience and confidence that are crucial to becoming a high-performing leader. Pursuing school leadership provides the opportunity to make a direct impact on school culture and

positively influence instructional quality, which will result in improved outcomes and higher long-term success rates for students in Hillsborough County.

RAND reported that districts with principal pipelines had almost eight fewer losses for every 100 newly placed principals than other districts in the state with no pipeline. Hillsborough County Public Schools was one of the districts included in the study. RAND noted that “**we found no other comprehensive district-wide initiatives with demonstrated positive effects of this magnitude on student achievement.**” The study results also elaborated on the disruptive impacts of principal turnover – disruptive to teachers, students, and budgets.

Recruiting Leaders for Turnaround Schools: The purpose of this program is to recruit aspiring administrators to teach in high-need schools while earning their Master’s Degree in Educational Leadership. These aspiring leaders will develop their capacity to lead in a high-need school thru reflecting on and studying effective practices in turnaround schools. Upon completion of their Master’s Degree and the Future Leaders Academy, leaders will begin their assistant principal career with a highly effective principal in a less-demanding school and then move to a high-need school after serving a minimum of 2 years in an entry level assistant principal position.

The Master’s in Educational Leadership program at University of Tampa and Hillsborough County Public Schools are partnering together to prepare instructional staff for leadership in high-need schools. One of the many benefits of this dedicated course of study is the specific foci within each course on the complex nature of leadership in high-need schools. As a part of the district’s Turnaround Leadership Pipeline, we will be seeking diverse cohorts of experienced teachers to aggressively prepare to lead in a high-need school.

Educational Specialist Degree in Educational Leadership with Emphasis on Leadership in Turnaround Schools: The Educational Leadership and Policy Studies Department at USF and Hillsborough County Public Schools have been partnering together for a few years through our partnership with the Wallace Foundation to prepare administrators for leadership in turnaround schools. As a part of the district’s Turnaround Leadership Pathway, we will be seeking diverse cohorts of experienced leaders who have completed Preparing New Principals to pursue the Educational Specialist degree in Turnaround Leadership.

Achievement Schools: Achievement Schools, including our D.A. schools, will be supported in a way never seen before in our district to level the playing field for students. Our district will put its best leaders and teachers into our schools with the highest needs and provide the right resources to schools for sustained student success. We will create an innovative and collaborative learning environment that will center around a culture of high expectations for students. Achievement Schools staff members will each support a smaller group of schools (12-13 schools) that they’re able to visit more frequently. The Achievement Schools staff will provide principals and leadership teams with supportive, side-by-side coaching. Our district has been using an area model with 8 area superintendents. Each area superintendent has been creating their own individual strategy resulting in diluted district support. Under the Achievement Schools model, there will be a centralized support system and focused strategy to provide more resources to our highest needs schools. Grant funding, including the Teacher and School Leader Incentive Program, are available to help incentivize school leaders. They’ll also be provided with extra

District-Managed Turnaround Plan—Step 2 (TOP-2)

training and additional opportunities made available to staff at Achievement Schools. Another incentive for staff is working with amazing students – teaching, leading and helping them succeed.

Achievement Schools, including D.A. schools, will be staffed by experienced and highly effective leaders. The leaders selected for these schools must demonstrate Turnaround Leader competencies. The Turnaround Leadership Pathways (TLP) is our district’s strategy to ensure we have the right leaders in our highest-needs schools. TLP is centered on the belief that leadership is the key component for change in schools, because great leaders build strong school culture and attract and retain talented teachers, who in turn, significantly improve student achievement.

What operational flexibility will be afforded to the principal, such as the degree of input in selecting their school leadership team and instructional staff?

Principals have autonomy and flexibility in many areas. Principals hire their own staff, and work with HR through established procedures to maintain an appropriate staff. While principals may collaborate with their Area Superintendents regarding hiring, the ultimate responsibility for decision making lies with the principals.

What actions will the district take regarding the school leadership team after the first year of this plan if the school’s grade does not improve?

HCPS believes that school turnaround is a process that may take, as supported by research, three to five years. However, there is an understanding of the urgency to make progress with our most vulnerable students. Continuous progress monitoring, under the supervision of Area Superintendents, will provide a solid data base from which to make decisions about the capacity of the leaders currently in place. Interactions with the parents, families, school staff members, and community will also be a consideration.

Final leadership decisions will be made by the Superintendent and Cabinet, after consideration of the many variables in play. Decisions will be made based on what is best for the students, and the school overall. The decision may be to replace all or part of the leadership team, or it may be decided that providing additional time and/or supports will allow for the greatest opportunity for success.

Assurance 2: Narrative of School Capacity- Educators

In the box below, the district must include information about its systems to ensure the school has effective educators capable of improving student achievement, including priority in hiring, recruitment and retention incentives and professional development and coaching support provided by the district. At a minimum, reply to the following:

1. What is the process for filling vacancies at this school, specifically in the core content areas? Is this school given priority in hiring? Is hiring completed at the district level so vacancies at

District-Managed Turnaround Plan—Step 2 (TOP-2)

turnaround schools are filled before other schools are permitted to hire? Is there a MOU or union agreement to this effect?

2. How does the district ensure students at this school are instructed by certified instructional personnel when unexpected vacancies arise?
3. Does the district offer bonuses and, if so, what are the qualifications and conditions (e.g., length of employment commitment, performance)? Is there a union agreement to this effect?
4. Does the district offer incentives to Highly Effective or Effective state VAM instructional personnel to reduce turnover at turnaround schools?

Assurance 2: Narrative-School Capacity- Educators

What is the process for filling vacancies at this school, specifically in the core content areas? Is this school given priority in hiring? Is hiring completed at the district level so vacancies at turnaround schools are filled before other schools are permitted to hire? Is there a MOU or union agreement to this effect?

As described earlier, HCPS held a Showcase of Achievement Schools event, inviting and recruiting new and current teachers to be a part of our Achievement and D.A. Schools. Principals and their leadership teams did interviews on the spot and were able to offer positions in areas such as math, science, English, reading and Exceptional Student Education. HR practices have been modified to support hiring the best and brightest teacher talent at our D.A. schools by filling vacancies at those schools with the most qualified candidates first. The new Spark initiative offers financial incentives for effective and highly effective teachers that commit to teaching in our high need schools.

How does the district ensure students at this school are instructed by certified instructional personnel when unexpected vacancies arise?

Unexpected vacancies present challenges, especially when they occur during the school year. We recognize the need to have our students under the tutelage of certified teachers. We have put in place additional units at our high need schools so that principals can “over” hire, thereby reducing the impact of natural attrition. Additionally, our HR department works to maintain hiring throughout the school year, and the best of those applicants will be directed to our Achievement Schools, including DA schools, first. Other certified personnel on campus are available to be directed to support vacancies. Certified teachers working temporarily as substitutes are also utilized to support longer term vacancies. There is a plan in place that addresses utilization of these “over-hired” teachers across all DA schools to fill vacancies.

Does the district offer bonuses and, if so, what are the qualifications and conditions (e.g., length of employment commitment, performance)? Is there a union agreement to this effect?

Our district will continue to incentivize teachers, now under the Spark initiative. We have designated more than \$1 million for teacher professional development and have already designed plans for summer and back-to-school training sessions with staff. Our district has allocated four professional development specialists to Achievement Schools, including D.A. schools. This will ensure teachers get what they need and are successful as we work to eliminate barriers.

Does the district offer incentives to Highly Effective or Effective state VAM instructional personnel to reduce turnover at turnaround schools?

Certified teachers with an Effective or Highly Effective performance evaluation, teaching in field, at our highest needs schools are eligible for the Spark initiative. This program was established with the purpose of helping to create stability and equity in harder to staff schools, recruiting and retaining highly qualified instructional staff, increasing student achievement, and promoting a culture of ongoing professional development.

Research consistently bears out that the school leader is the most important element in teachers choosing to go to, and then remain at a school site. To that end, HCPS works to ensure that principals are selected and placed with great care. HCPS works to develop strong leaders through the Hillsborough Principal Pipeline. As stated above, The Hillsborough Principal Pipeline offers unique and valuable opportunities for teachers to experience and prepare for a school leadership position by helping them gain the skills, experience and confidence that are crucial to becoming a high-performing leader. Pursuing school leadership provides the opportunity to make a direct impact on school culture and positively influence instructional quality, which will result in improved outcomes and higher long-term success rates for students in Hillsborough County.

Assurance 2: Verification-School Capacity- Educators

In the box below, describe the specific actions the district has taken to recruit instructional personnel with state VAM ratings of Highly Effective and Effective to this school. Describe how the district has reassigned or non-renewed instructional personnel with state VAM ratings of Needs Improvement and Unsatisfactory to a school not in DA and how the district filled any vacancies resulting from these reassignments with certified instructional personnel.

What actions have been taken to recruit with state VAM ratings of Highly Effective and Effective to this school?

As stated above, HR practices have shifted to allow a focus on staffing highest-need schools first. Transfer periods carry restrictions with regards to state VAM ratings, and additional hiring fairs were held to directly focus on hiring for our turnaround schools. Letters and personal outreach efforts have targeted HE and E rated teachers from across the district. The implementation of the SPARK District Incentive Program is encouraging highly effective teachers to move into the highest-needs schools to make a positive impact on student learning.

How many instructional personnel were reassigned or non-renewed due to state VAM ratings of Needs Improvement and Unsatisfactory?

None of the teachers were reassigned. They will receive weekly support from coaches to enhance teaching practices. One teacher did resign.

Confirm that all reassigned instructional personnel were not reassigned to DA schools.

N/A

District-Managed Turnaround Plan—Step 2 (TOP-2)

How did the district fill the vacancies? Have all vacancies been filled with certified instructional personnel?

There are currently 5 vacancies. The vacancies are listed on the district website for qualified candidates to apply.

STATE VAM DATA- School % Compared to District and State%				
3- year aggregated VAM Data	Highly Effective (HE)	Effective (EF)	Needs Improvement (NI)	Unsatisfactory (UN)
Number of instructional personnel		9	4	2
School %		56.25	12.5	12.5
District %	16	54	15	14
State %				

Acknowledgement

The district verifies the information in this form and confirms that they have collaborated with the school and the RED.
