

**FORM FCAPE-03,  
Florida Career and Professional Education Act Industry  
Certification Test Administration and Security Agreement**

Industry certifications are independent, third-party verification of technical skills achieved by students. Any practice that jeopardizes the validity of industry certifications disadvantages the students and prospective employers. Florida State Board of Education Rule 6A-6.0576 prohibits conduct that may threaten the integrity of the industry certification exams. Examples of prohibited conduct are provided in section "Conditions for Florida Education Finance Program (FEFP) calculation and reporting." of this rule, which may be accessed at [www.flrules.org](http://www.flrules.org).

Teachers providing instruction leading to industry certification exams shall not administer an industry certification exam to students for which they provide direct instruction for the certification, except as noted in section "Teacher conduct provisions for maintaining the validity of digital tool certificates." of this rule.

I have reviewed all test administration and conduct provisions for industry certification exams. I agree to follow all test administration and security procedures outlined in the Rule.

Further, I will not reveal or disclose any information about the test items or engage in any acts that would violate the security of industry certification exams or cause student achievement to be inaccurately represented.
