## **REJECT RULES**

1.

District Number, Current Instruction/Service must be numerical and in the range 01-68 or 71-75 or 80-83.

# **Record rejected**

# EXAMPLE

The first two records listed below would be loaded to the database assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Instruction/Service is not in the appropriate range.

District Number,	Florida
Current Instruction/	Education
Service	Identifier
01	FL123456789100
01	FL123456789200
*00	FL123456789300

## DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the database, the district must correct the District Number, Current Instruction/Service and resubmit the record.

## **REJECT RULES**

2.

District Number, Current Instruction/Service must be correct for the district submitting the data.

# **Record rejected**

## EXAMPLE

If district 01 is submitting records, District Number, Current Instruction/Service must be 01 for all records. In the records listed below, the first two records would be loaded to the database assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Instruction/Service is 02 rather than 01 (the number of the district submitting the record).

District Number,	Florida
Current Instruction/	Education
Service	Identifier
01	F123456789100
01	F123456789200
*02	F123456789300

### **REJECT RULES**

## 4.

Survey Period Code must be 1, 2, 3, or 4 and must be correct for the submission specified by the district.

# **Record rejected**

# EXAMPLE

The Survey Period Code as specified in the transmission JCL or in the statements for tape transmission is identified as Survey Period Code "2" and records are coded with Survey Period Code "3". All updates, adds, or deletes with this inconsistency are rejected.

## DISTRICT RESPONSIBILITY

Correct the Survey Period Code either on the records coming in or the transmission JCL and resubmit all of the records.

#### **REJECT RULES**

5.

The Transaction Code must be A, C or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified then the record must not already exist on the database; if C or D is specified then the record must exist on the database.

## **Record rejected**

#### EXAMPLE

For all original transmissions, the Transaction Code must be "A". An original transaction is the first submission of a record during a survey period. After original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D". To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A". Records with an incorrect Transaction Code are rejected.

## DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be applied to the database, the district must correct the Transaction Code and resubmit the records.

# **Record rejected**

# EXAMPLE

The Fiscal Year as specified in the Transmission JCL or in the statements for tape transmission is identified as the valid year for data submission but records being submitted have the previous Fiscal Year coded. All updates adds or deletes that have this inconsistency are rejected.

# DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct the Fiscal Year and resubmit the records.

# State validation

**Note:** Students transported and reported by one district (District Number, Current Instruction/Service) but officially enrolled in another district (District Number, Current Enrollment), should have a matching Student Demographic Information record sent by the district in which the student is officially enrolled, not by the district providing the transportation. For a list of Student Transportation records that do not have a matching Student Demographic Information record, refer to district-level transportation report F71026.

# EXAMPLE

The Student Transportation record listed below which is marked with an asterisk would cause a message to be generated because it does not have a matching Student Demographic record.

District Number,	District Number,	Florida	Survey	Fiscal
Current Instruction/	Current	Education	Period	Year
Service	Enrollment	Identifier	Code	
*01	01	FL123456789100	2	****
