

Opportunity Scholarship Program Public School Option

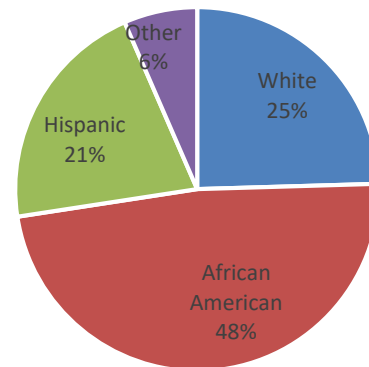

The purpose of the Opportunity Scholarship Program (OSP) is to provide enhanced opportunities for students to attend a high-quality public school. Florida’s OSP was the first program of its kind in the nation and allows students attending a low-performing public school to choose a higher-performing public school.

Students who are enrolled or assigned to attend a Florida public school that received a grade “F” or three consecutive “D” are eligible for the Opportunity Scholarship. In addition, students entering kindergarten or first grade who have been notified that their assigned school is failing may also be eligible to participate. Students who participate in the Opportunity Scholarship Program may then continue to attend the higher-performing public school feeder pattern until the student graduates from high school.

A total of 1,072 students remained enrolled in the public option of the OSP during the 2020-21 school year. Of those students, 74% were eligible for free or reduced price lunch. African-American students were among the largest population to participate at 48%, followed by White students at 25% and Hispanic students at 21%.

OSP Eligible Schools

For a list of OSP eligible schools and detailed information on the program, please visit the School Choice Web site at <http://www.fldoe.org/schools/school-choice/k-12-scholarship-programs/osp/>. Given the absence of 2019-20 test administration and school grades due to school closures in the spring of 2020, school grades from 2018-19 was used for the implementation of OSP for the 2020-21 school year.
