

EQUIPMENT LIST

DENTAL LABORATORY ASSISTING (secondary) DENTAL LABORATORY TECHNOLOGY (postsecondary)

Students in this program should have access to the following equipment:

abrasive blaster, pencil type	collector, dust
acid dishes	colloid conditioner
acid tweezers	compressor
air gun	cooker, automatic
air hammer	curing unit with thermostat & timer
air-driven hand piece	crucibles, casting
arbor band mandrels	crucibles, quartz
articulator, plain line (hinge)	cylinder, graduate, double scale 30-60-125 mL
articulators, non-adjustable	dappen dishes
articulators, semi-adjustable	dental explorer
beakers, glass (assorted)	denture curing unit
bench engine (high speed)	die lock tray, full
bench lamps with magnifiers	die lock tray, quadrant
bite fork	discs, separating & finishing (assorted)
blades, assorted	drill, reverse pin facing
blowtorch, gas/air	dry pinning machine
blowtorch, gas/oxygen	duplicator
boiler	electroformer
boil out ladle	electroplating machine with accessories
boil out tank	engine, laboratory with rheostats
bowl, mixing plaster	eraser, air
bowls, rubber	face bow
brushes, assorted	firing trays, porcelain
brushes, porcelain	flask, acrylic bridge & inlay
bucket	flask compress
bunsen burner	flask, denture (lower)
bunsen lighter	flask, denture (upper)
burnout furnace (partial dentures)	flask, duplicating
burnout furnaces (crown & bridge)	flask ejector (upper & lower)
burs, steel and carbide	flask, pour-n-cure
caliper	flask, press (2-flask capacity)
carvers, assorted	formers, base (assorted)
casting glasses	formers, bite rim
casting machine, centrifugal (large)	formers, sprue (assorted)
casting machine, centrifugal (small)	furnace, glazing
casting machine, centrifugal (thermotrol)	furnace, porcelain with vacuum pump
casting machine, induction	furnace tongs
casting ring tongs, large	gauges, Boley
casting ring tongs, small	gauges, metal
casting rings, assorted	gauges, wax
chisels, assorted	

gloves, heat resistant
gloves, rubber (insulated)
goggles
gold dust collector
gold scale
grinder, high-speed
guides, tooth mold
guides, tooth shade
hand piece, laboratory (air driven)
hemostat, curved
hemostat, straight
hemostats
hygro bath
investing machine, combination
investing machine, mixing
investing machine, vacuum
jars, assorted
jig, reline
jig, soldering
knife sets, ceramic
knives, assorted
knives, carving
knives, ceramic (spatulas)
lathe, hi-speed
lathe splasher with removable tray
lathe with quick chuck (assorted)
lights, infrared
magnifier
microscope, lab
mini-torch
mixer, power
mixing jar, acrylic
model drying oven
model trimmer
model trimmer, orthodontic
model vibrator
mounting plates
muslin buffs
nippers, diagonal cutting
nippers, plastic
oven, drying
oxygen tank
pick, dental
picking pan, porcelain
pindex machine
plaster bin
plaster nippers
plaster sink trap
plastic nippers
plate, hot
pliers, clasp
pliers, contouring
pliers, loop forming
pliers, 3-prong

pliers, universal
polishing bench
polytrimmer
pot, dip wax
pot, pressure
press, equallock
press, pneumatic packing
press, spring
safety glasses
sand (shell) blaster
sandblaster
saw, dental
scrapers, No. 2 & No. 4
scissors, regular
semi-adjustable articulator
scissors, platinum
slab, glass mixing
soldering block, asbestos
soldering block, charcoal
soldering machine (electric)
spatulas, assorted
spatulas, plaster
spot welder
steam cleaner
steamer
strainer
surveyors, complete
syringe
tank, bailout
templates, assorted
timer, interal
torch, alcohol
torch, gas air/gas oxygen
trays, porcelain firing
tripod
tweezers
ultrasonic cleaner with timer & accessories
vacu-press
vacuum forming machine
vacuum machine, custom tray
vacuum pump
vacuum, power mixer
vibrator, automatic
visible light curing unit
wax dipping unit
waxing unit, electric
wheels, separating & finishing (assorted)
wire cutters
work pans
