Statewide Assessments

Science and Social Studies

2023

Statewide Assessments Science and Social Studies

First administered in 2012, the statewide science assessment annually measures student achievement of the Next Generation Sunshine State Standards (NGSSS) in science. The Florida End-of-Course (EOC) Assessments are computer-based tests that also measure the NGSSS in Biology 1, U.S. History and Civics, as outlined in their course descriptions. The Biology 1 EOC Assessment was administered for the first time in spring 2012; the U.S. History EOC Assessment was administered for the first time in spring 2013; and the Civics EOC Assessment was administered for the first time in spring 2014. Each EOC assessment is administered in the spring, summer, fall and winter.

Achievement Levels

The Achievement Level definitions and cuts scores that apply to the assessments are provided below. Achievement Levels are referred to as Performance Levels on student reports.

Level 5	Mastery—highly likely to excel in the next grade/course
Level 4	Proficient—likely to excel in the next grade/course
Level 3	On-Grade-Level—may need additional support for the next grade/course
Level 2	Below Satisfactory —likely to need substantial support for the next grade/course
Level 1	Inadequate—highly likely to need substantial support for the next course

Statewide Assessments Science

Summary of Science Results

• Grade 5

- Overall, performance at Level 3 or above increased by 3 percentage points (48% to 51%) from 2022 to 2023.
- Charter schools and non-charter schools both increased 3 percentage points, with both groups having 51% of students performing at Level 3 or above; however, charter schools continue to have a lower percentage of students scoring at Level 1 (lowest level) than non-charter schools (23% vs. 25%).
- o All subgroups increased performance at Level 3 or above compared to 2022.
 - African American students and Students with disabilities had the highest increase in performance at Level 3 or above of 5 percentage points compared to 2022 (29% to 34% and 21% to 26%, respectively).
 - Students from economically disadvantaged families increased performance by 4 percentage points (38% to 42%).
 - White students increased performance by 3 percentage points (62% to 65%).
 - Hispanic students increased performance by 2 percentage points (44% to 46%).
 - English language learners increased performance by 1 percentage point (13% to 14%).
- Achievement gaps between some racial/ethnic subgroups narrowed.
 - The achievement gap between African American students and White students narrowed by 2 percentage points compared to 2022.

Grade 8 (Statewide Science Assessment and Biology 1 EOC)

- Overall, performance at Level 3 or above decreased by 1 percentage point compared to 2022 (48% to 47%).
- Charter school performance remained the same, while non-charter school performance decreased by 1 percentage point (52% to 52% vs. 47% to 46%). Additionally, charter schools outperformed non-charter schools by having a higher percentage of students performing at Level 3 or above (52% vs. 46%) and a lower percentage of students scoring Level 1 (18% vs. 26%). Charter school performance has been consistently higher than non-charter school performance since the test was first administered.
- Students with disabilities increased performance by 1 percentage point (17% to 18%) and African American students maintained performance (30%) compared to 2022.
- Hispanic students, White students, English language learners, and students from economically disadvantaged families decreased performance by 1 percentage point compared to 2022 (43% to 42%, 61% to 60%, 9% to 8%, and 37% to 36%, respectively).

Biology 1 EOC

- Overall, performance at Level 3 or above increased by 3 percentage points compared to 2022 (60% to 63%).
- Charter school performance increased by 4 percentage points, while non-charter performance increased by 1 percentage point (60% to 64% and 61% to 62%, respectively).
- All subgroups increased performance at Level 3 compared to 2022.
 - Students with disabilities increased performance at Level 3 or above by 4 percentage points compared to 2022 (28% to 32%).
 - African American students, Hispanic students, and students from economically disadvantaged families increased performance by 3 percentage points compared to 2022 (43% to 46%, 56% to 59%, and 50% to 53%, respectively).
 - White students and English language learners increased performance by 1 percentage point compared to 2022 (73% to 74% and 19% to 20%, respectively).
- Between 2022 and 2023, the achievement gaps between African American students and White students and between Hispanic students and White students both narrowed by 2 percentage points.

Statewide Assessments Science

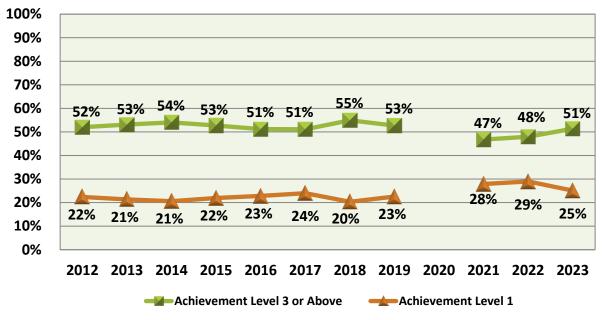

NOTES:

- 1) Pursuant to <u>Florida Department of Education Emergency Order No. 2020-EO-1</u>, spring K-12 statewide assessment test administrations for the 2019-20 school year were canceled; therefore, data are not reported for 2020.
- **2)** For 2020-21, in accordance with <u>Florida Department of Education DOE Order No. 2021-EO-02</u>, classes with state end-of-course (EOC) exams were not required to incorporate them as 30% of the final course grade.
- 3) Percentages displayed in this document for previous years may reflect minor differences from percentages published previously. This is because of the inclusion of additional assessment records reported after the initial publication of data.
- 4) Student performance on the 2012 Statewide Science Assessment and Biology 1 EOC Assessment presented in this document is reported using the Achievement Levels established by the State Board of Education in December 2012. The results were retrofitted to the established score scale and Achievement Levels so stakeholders can compare school years and see how students would have performed if the Achievement Levels had been established in 2012.
- 5) Biology 1 EOC performance in this document includes only student results for all first-time test takers for each administration during each school year.

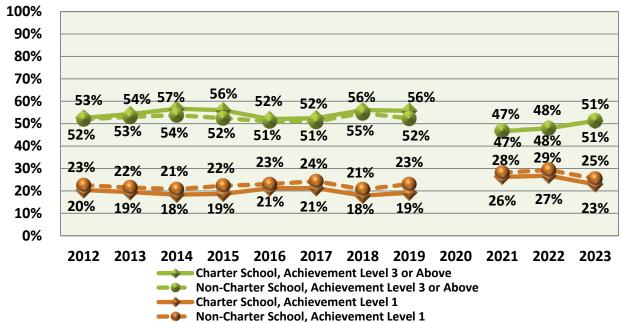

School Year	Biology 1 EOC Administrations
2012	Spring 2012

Statewide Assessments Social Studies

Summary of Social Studies Results

Civics EOC

- Overall, student performance on the Civics EOC decreased by 3 percentage points from 2022 to 2023 (69% to 66%). However, Civics remains the statewide assessment with the highest percentage of students scoring at Level 3 or above.
- Charter schools continue to outperform non-charter schools.
 - Charter schools had a higher percentage of students performing at Level 3 or above (73% vs. 64%) and a lower percentage of students scoring Level 1 (12% vs. 19%). Additionally, charter school performance has been consistently higher than non-charter school performance since the test was first administered.
- o All subgroups decreased performance at Level 3 or above from 2022 to 2023.
 - Students with disabilities decreased performance at Level 3 or above by 2 percentage points (39% to 37%) compared to 2022.
 - African American students, White students and English language learners decreased performance at Level 3 or above by 3 percentage points (56% to 53%, 79% to 76%, and 29% to 26%, respectively).
 - Students from economically disadvantaged families decreased performance by 4 percentage points (61% to 57%).
 - Hispanic students decreased performance at Level 3 or above by 5 percentage points (66% to 61%).

U.S. History EOC

- Overall, performance at Level 3 or above on the U.S. History EOC decreased by 3 percentage points from 2022 to 2023 (65% to 62%).
- o All subgroups decreased performance at Level 3 or above in U.S. History.
 - White students, Students with disabilities and English language learners decreased performance at Level 3 or above by 2 percentage points compared to 2022 (76% to 74%, 36% to 34% and 21% to 19%, respectively).
 - African American students, Hispanic students, and students from economically disadvantaged families decreased performance by 3 percentage points compared to 2022 (50% to 47%, 61% to 58%, and 56% to 53%, respectively).

Statewide Assessments Social Studies

NOTES:

- 1) Pursuant to <u>Florida Department of Education Emergency Order No. 2020-EO-1</u>, spring K-12 statewide assessment test administrations for the 2019-20 school year were canceled; therefore, data are not reported for 2020.
- 2) For 2020-21, in accordance with <u>Florida Department of Education DOE Order No. 2021-EO-02</u>, classes with state end-of-course (EOC) exams were not required to incorporate them as 30% of the final course grade.
- 3) Percentages displayed in this document for previous years may reflect minor differences from percentages published previously. This is because of the inclusion of additional assessment records reported after the initial publication of data.
- 4) Student performance on the 2013 U.S. History EOC Assessment presented in this document is reported using the Achievement Levels established by the State Board of Education in January 2014, and student performance on the 2014 Civics EOC Assessment is reported using the Achievement Levels established by the State Board of Education in January 2015. The results were retrofitted to the established score scales and Achievement Levels so stakeholders can compare school years and see how students would have performed if the Achievement Levels had been established at that time.
- 5) Social studies performance in this document includes student results for all first-time test takers for each administration offered each school year.
