Dear Providers:

An important role of the Quality Assurance and Compliance team in the Division of Career and Adult Education is to assure financial accountability, program quality and regulatory compliance. As stewards of state and federal funds, it is incumbent upon the division to monitor the use of career and technical education and adult education funds.

The Quality Assurance team is committed to excellence through accountability, collaboration, targeted technical assistance, continuous improvement and positive, systemic change. To further this commitment, the 2013-14 Quality Assurance Policies, Procedures, and Protocols manual has been developed to assist you in facilitating quality and compliance on a successful onsite monitoring visit. We hope you will find it to be a useful tool in continually improving the efficiency and effectiveness of your programs.

Together we can help Florida's students reach higher levels of educational achievement by ensuring that our resources are in accordance with regulations.

Sincerely,

A handwritten signature in black ink, appearing to read "Rod Duckworth".

SECTION 1 - GENERAL PROVISIONS

Purpose: The purpose of this section is to define the role, authority, philosophy, and support of the Division of Career and Adult Education's responsibility to design, develop and implement a comprehensive Quality Assurance System including monitoring activities for its federal and state funded grants.

A WAY OF WORK

The Florida Department of Education (FLDOE), Division of Career and Adult Education (Division), in carrying out its roles of leadership, resource allocation, technical assistance, monitoring, and evaluation is required to oversee the performance and regulatory compliance of recipients of federal and state funding. The Quality Assurance and Compliance section is responsible for the design, development, implementation, and evaluation of a comprehensive system of quality assurance including monitoring. The role of the Quality Assurance System is to assure financial accountability, program quality, and regulatory compliance. As stewards of federal and state funds, it is incumbent upon the Division to monitor the use of career and technical and adult education funds in addition to the regulatory compliance of providers on a regular basis.

The monitoring component of the system is risk-based. Risk assessment is a process used to evaluate variables associated with the grants and assign a rating for a provider's level of risk to the FDOE and the Division. In order to complete a risk assessment, certain risk factors have been identified which may affect the level of risk for each agency. A Risk Matrix is completed for each provider.

PURPOSE OF MONITORING

The purpose of monitoring is to identify the specific areas in which a provider is in compliance or non-compliance with federal law and regulations, state statutes and rules, the Office of Management and Budget (OMB) circulars, and/or conditions of the grant(s). The timely identification of non-compliance provides a framework to make changes that are expected to result in programs becoming more efficient and effective. Addressing the providers' program performance is essential to the Division's accountability system. A comprehensive and multi-dimensional Quality Assurance System is a foundation for continuous improvement of services and systems both internally and externally. Our commitment to excellence supports accountability, collaboration, targeted technical assistance, continuous improvement, and positive systemic change.

AUTHORITY

The Florida Department of Education receives federal funding from the United States Department of Education for Adult Education and Family Literacy under the Adult Education and Family Literacy Act of 1998 and for Career and Technical Education (CTE) under the Carl D. Perkins Career and Technical Education Act of 2006. FLDOE awards sub grants to eligible providers to administer local programs. FLDOE must monitor providers to ensure compliance with federal requirements, including Florida's approved state plans for Career and Adult Education, as specified in 34 CFR 76.770, 34 CFR 80.40 of the Education Department General Administrative Regulations (EDGAR), OMB Circular A-133, §____.400, and §215.86, Florida Statutes.

Part 74 - Administration of grants and agreements with institutions of higher education, hospitals, and other non-profit organizations. §74.1 Purpose (a) this part establishes uniform administrative requirements for federal grants agreements awarded to institutions of higher education, hospitals and other non-profit organizations...

(d) Non-profit organizations that implement federal programs for the states are also subject to the state requirements. (Authority: 20 U.S.C. 1221e-3, 3474; OMB Circular A-110)

Part 76 - State Administered Programs. 34 CFR 76.1 "Programs to which part 76 applies.
(a) The regulations in part 76 apply to each State-administered program of the Department."
34 CFR 76.770 "A State shall have procedures to ensure compliance. Each State shall have procedures for reviewing and approving applications for sub grants and amendments to those applications, for providing technical assistance, for evaluating projects, and for performing other administrative responsibilities the State has determined are necessary to ensure compliance with applicable statutes and regulations."

Part 80 - Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, 34 CFR 80.1 "Purpose and scope of this part. This part establishes uniform administrative rules for federal grants and cooperative agreements and sub awards to State, local and Indian tribal agreements."
80.40 "Monitoring and reporting program performance. (a) Monitoring by providers. Providers are responsible for managing the day-to-day operations of grant and sub grant supported activities. Providers must monitor grant and sub grant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Provider monitoring must cover such program, function or activity."

OMB Circular A-133 - Subpart D--Federal Agencies and Pass-Through Entities, §____.400 Responsibilities. ... "(d) Pass-through entity responsibilities. A pass-through entity shall perform the following for the Federal awards it makes:...(3) Monitor the activities of sub recipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved."

§215.86, Florida Statutes (F.S.), "Management system and controls.—Each state agency and the judicial branch as defined in §216.011, F.S., shall establish and maintain management systems and controls that promote and encourage compliance; economic, efficient, and effective operations; reliability of records and reports; and safeguarding of assets. Accounting systems and procedures shall be designed to fulfill the requirements of generally accepted accounting principles."

§1008.32, F.S., addresses the responsibility of the State Board of Education for oversight and enforcement relative to compliance.

STRATEGIC IMPERATIVE

The FLDOE operates within the following guiding principles: a coordinated K-20 seamless system, student-centered, access, equity, academic excellence, and flexibility. Strategic focus areas within Florida's Next Generation PreK-20 Education Strategic Plan have also been developed to assist the Department in long range planning efforts. The Division of Career and Adult Education specifically addresses the following strategic focus areas:

1. Expand opportunities for postsecondary degrees and certificates.
2. Improve College and Career Readiness.

OPERATIONAL STANDARDS – ROLES AND RESPONSIBILITIES

The Office of Management and Budget (OMB) Circular A-133 requires that the FLDOE, Division of Career and Adult Education, monitor the activities of sub grantees or providers, to ensure that performance goals are achieved and Federal funds are expended for authorized purposes. Monitoring will support compliance with federal laws and regulations, state statutes and rules, and the provisions of an approved grant award. A Quality Assurance System includes various monitoring strategies such as: phone calls, e-mails, conference calls, video conferences, grant application reviews, self-assessment, self-monitoring activities, records reviews, targeted technical assistance, corrective action plans, onsite visits, verification, and/or referrals for fiscal or data reviews.

Quality Assurance staff is expected to coordinate and complete compliance and performance monitoring in accordance with the system requirements. Staff is required to render impartial and unbiased judgments in the review of provider performance and compliance with the terms and conditions specified in the approved grant award, as well as applicable state and federal laws.

Quality Assurance staff is expected to demonstrate, model, and reinforce the values of integrity, accountability, quality, urgency, responsiveness, personal responsibility, courtesy, collaboration, and innovation. Staff will demonstrate these values at all times in their interactions with co-workers, supervisors, providers and other stakeholders; in their personal contributions for work assignments and projects; and when representing the Division of Career and Adult Education and the Florida Department of Education.

SECTION 2 - IMPLEMENTATION FUNDAMENTALS

Purpose: The purpose of this section is to identify essential fundamentals of the implementation of the Quality Assurance System.

GENERAL PROCEDURES

A framework has been developed to provide consistency and order to the application of the Quality Assurance activities as they are developed. For each component of the framework certain elements may be present.

Purpose: A statement of purpose will provide clarity regarding the goal of the specific component or monitoring activity.

Regulatory Authority: Protocols will be substantiated with the regulatory citation as appropriate.

Protocols: In order to substantiate compliance vs. non-compliance, protocols are developed to ensure consistent application of regulatory requirements. For example, the use of interview protocols, record review checklists, or observation guidelines will support clear expectations and findings of fact. Forms and checklists are developed to ensure efficient monitoring processes.

Consistent Use of Terms: The sub grantee or vendor will be referred to as the provider or agency in the contents of the monitoring papers. Other terms will be defined in applicable laws and regulations; excerpts are included in this document.

STAKEHOLDER INVOLVEMENT

The Division of Career and Adult Education is committed to the inclusion of stakeholder involvement in the Quality Assurance System. Participation of school districts, community colleges, state colleges and universities, community/faith-based organizations, students and families, and Division staff ensures a dynamic and transparent system. As the Quality Assurance System is developed and implemented, it will change and be enhanced based upon the input of

stakeholders in addition to implementation activities. The Advisory Council acts in an advisory capacity to ensure stakeholder participation in the quality assurance process; there is no approval authority. Final authority for decision-making lies with the Division.

Quality Assurance Advisory Council: An Advisory Council may convene, in person or by phone, to review and give feedback regarding the Quality Assurance processes and tools. This workgroup may also assist in the review of data and trends to ensure meaningful development and revision of the system; identify the need for statewide systemic technical assistance activities; and assist in the evaluation of the system.

Focus Groups: Representatives associated with the grant awards as a provider, student or family member, may be solicited from across the state to participate in periodic focus groups during the year. The focus groups may give input regarding a single issue/topic. Groups may be contacted for phone or video conferences, individual calls, e-mails, or written surveys. Focus groups may also be organized to meet during onsite visits.

Peer Monitors: Peer monitors can be an invaluable asset to the quality assurance process, especially monitoring. Persons from the field are nominated to participate in the monitoring process and bring a wealth of training and expertise to their assignment. Peer monitors may be used across disciplines and can be a key tool in times of shrinking resources. Qualified persons from local providers, FLDOE, and/or outside agencies may be recruited to participate in the monitoring processes with the FLDOE monitoring team. Use of peer monitors will increase monitoring resources, provide training on the monitoring process, and support an effective and efficient system. The Division may implement a peer monitoring system.

PROFESSIONAL DEVELOPMENT

In order to ensure the consistent interpretation and application of the components of the Quality Assurance System, it is appropriate to provide training to internal and external customers. Training will be available to internal Division staff. The participation of representatives of the grants administration and program areas is an asset to any monitoring process. Training content and application is crucial to both internal and external customers. The content will be available through various media to ensure access for all interested parties.

Targeted providers designated to have an onsite visit, will receive training via conference calls regarding the monitoring activities and procedures specific to the visit.

SECTION 3 - PROVIDER SELECTION

Purpose: The purpose of this section is to identify how providers are selected for specific monitoring strategies.

Various sources of data are used throughout the implementation of the Quality Assurance System. The monitoring component of the system is risk-based. Risk Assessment is a process used to evaluate variables associated with the grants and assign a rating for the level of risk to the FDOE and the Division. A Risk Matrix, identifying certain operational risk factors, is completed for each provider. The results of the Risk Assessment process and consideration of available resources are used to determine one or more appropriate monitoring strategy(ies) to be implemented.

Those agencies with high Risk Assessment scores will be monitored onsite, with consideration of the resources available. Unique circumstances may contribute to the addition or postponement of onsite monitoring for some agencies. Any monitoring strategy may be utilized, up to and including, onsite monitoring, if determined necessary by the Director, requested by other administrative staff, or directed by the Chancellor. Such monitoring activity may be announced or unannounced. Additional agencies may be required to complete a self-assessment and/or be

subject to a desk review. Except under extraordinary circumstances or determined necessary by the Director, those agencies that either were monitored onsite or completed a self-assessment during a given year may not be subject to the same activity in two subsequent years. However, there are those agencies whose size may dictate monitoring by regions or geographic areas during successive years; such arrangements will be made with the individual provider.

In some cases, specifically with Community- and Faith-Based Organizations (CBOs and FBOs) including Career and Technical Student Organizations (CTSOs), the evaluations of the risk factors result in similar scores. Therefore, such organizations may be evaluated on a periodic and/or cyclical basis as determined appropriate by the Division. For onsite visits, agencies may be chosen to fit in with regularly scheduled travel or scheduled separately as determined by the Director.

DATA REVIEW

The level of compliance and performance of services delivered by each provider requires continuous monitoring. Data are a key accountability tool used to measure past and present performance. The review of data is an integral part of the activities which will support the appropriate monitoring strategy for selected service providers. Following are some of the data sources that may be used to assess a provider's performance:

- Grant Application including Assurances
- Project Disbursement Report (DOE 499 and 399)
- Project Amendment Request(s)
- Auditor General Audit Reports
- Community-Based Organizations' (CBO) Audit Reports
- National Reporting System (NRS) - Adult Education Annual Report
- Florida Education Training and Placement Information Program (FETPIP)
- Workforce Development Information System (WDIS)
- Consolidated Annual Report (CAR)-Career and Technical Education Annual Report
- CBO data system

LEADERSHIP CONTRACTS

Contracts that promote and support the providers of Career and Technical Education and Adult Education programs to enhance student performance will be monitored. Once targeted, districts or colleges are identified for onsite monitoring, such support contracts may be included in scheduled activities. Should additional protocols be developed specific to these agencies, such protocols would be distributed prior to any monitoring activity. Alternative schedules may also be implemented. Such contracts include, but are not limited, to Leadership Grants, Associations, and Career and Technical Student Organizations (CTSO's).

SECTION 4 - RISK ASSESSMENT

Purpose: The purpose of a risk assessment is to identify the primary process used by the Quality Assurance Team to select Career and Adult Education providers for specific monitoring strategies.

Risk Assessment is a process used to evaluate variables associated with the grants and assign a rating for the level of risk to the Florida Department of Education and the Division of Career and Adult Education.

Risk Factors

The risk assessment is based on an evaluation of certain risk factors related to the grants. The decisions to identify risk factors must take into account the accessibility, availability, and relevance of the required data. The following are the risk factors that are currently being used:

1. Volume of Federal funds
 - Greater funding may entail greater risk.
 - The allocation of one million dollars carries significantly more risk than one thousand dollars.
2. Number of grants
 - The more grants a provider administers, the higher the risk.
 - Consortium grants may be considered higher risk due to greater complexity.
3. Number of grants with unexpended funds greater than 10%
 - A lack of internal controls and/or program issue must be considered.
 - The monies requested or allocated may not coincide with actual need.
4. History of audit findings
 - Consider the number of findings from three prior auditor general's audits; negative findings indicate increased risk, repeated or uncorrected findings indicate even greater risk.
5. Organizational Changes
 - A change in director during the previous two fiscal years may affect coordination and implementation of the grant.
 - A seasoned director presents less risk than one who is new to the responsibilities of the position.

Risk Matrix

The risk assessment tool, the Risk Matrix, uses predetermined risk factors to rank Career and Adult Education grants and thus, identify targeted providers.

- Specific risk factors are identified on the Risk Matrix;
- a scale of specific criteria is established;
- a value is assigned for each of the criteria;
- the value is multiplied by the risk factor weight;
- results in a total number of points for the specific risk factor; and
- the points for each risk factor are totaled for a level of risk score for the agency.

The higher score indicates a greater level of risk. However, **A HIGH RISK ASSESSMENT SCORE SHOULD NEVER BE INTERPRETED AS A NEGATIVE REFLECTION ON THE PROVIDER.**

The Division will review specific risk factors, criteria scale, values, and risk factor weights annually and make appropriate changes as needed.

Linking the Risk Assessment and the Monitoring Strategy

The Risk Assessment process is used by the Quality Assurance Team to determine the monitoring strategy, appropriate for each provider, with the more comprehensive strategy, for example, an onsite visit for a provider deemed to be at higher risk. Once an agency is linked to a specific monitoring strategy, then consideration of the current status of all Career and Technical and Adult Education funded grants in the geographic area may be reviewed.

The review of the Risk Assessment process will be ongoing. Use of the Risk Assessment process does not limit the Division's ability to monitor any agency, grant award, or other contracts at any time. The Division may apply any specific monitoring strategy to any federal- or state-funded provider at any time. There may be circumstances which may warrant onsite monitoring or other strategies, regardless of a provider's risk matrix score. Although the Risk Assessment process is the primary means by which monitoring strategies are determined, it is not the only method that may be used. For example, to ensure the effective and efficient use of resources, there may be opportunities to evaluate and monitor other Career and Technical and Adult Education grants, agencies, or programs in the geographical area at the same time that targeted providers are monitored.

Module B

SECTION 1	MONITORING STRATEGIES	7
SECTION 2	MONITORING PROCESSES	8
SECTION 3	SELF-ASSESSMENT	10
SECTION 4	RESOLUTION ACTIVITIES	10
SECTION 5	ENFORCEMENT AND EVALUATION	11

SECTION 1 - MONITORING STRATEGIES

Purpose: The purpose of monitoring strategies is to identify a continuum of activities that may be used by the Division to monitor agencies and to ensure quality assurance including performance and compliance.

The following activities may be used as monitoring strategies with a provider at any time during the monitoring process. The intensity, frequency, and purpose of use may vary according to the monitoring strategy required by the agency. Various monitoring strategies may be utilized to ensure a comprehensive and multi-dimensional Quality Assurance System. The Division is not limited to apply a specific strategy to any provider at any time. Strategies include:

Phone Calls and E-mail Communication occurs with an agency to engage in monitoring activities, including targeted technical assistance or, as a periodic reporting mechanism, through one or more phone calls, including conference calls or e-mail.

Video Conference Various technology may be used to conduct a video conference to complete monitoring activities including, but not limited to, pre- and post-visit communication with the agency, interviews, targeted technical assistance, and follow-up activities.

Self-Assessment An agency completes a full or partial Self-Assessment according to a timeline determined by the Quality Assurance Director to identify areas of greatest need/non-compliance; provide the results to the Division; and, if necessary, develop a corrective action/system improvement plan to ensure full compliance.

Records Review Specific records and documentation are identified and requested to be submitted for a compliance review onsite or offsite in a desk review. Selected records may include, but are not limited to, invoices, purchase orders, travel documents, equipment lists, personnel records, student records and data, and existing policies and procedures.

Technical Assistance The Division of Career and Adult Education or other designated parties provide a set of services that will assist providers with program and fiscal accountability, program quality and management, policies and procedure, or operations.

Onsite Visit Monitoring activities are conducted onsite that may include the following: records review, observations, interviews, or other activities to perform a comprehensive review of compliance and program performance.

Verification Activities are used to ensure the accuracy and consistency of the agency's performance, documentation, policies and procedures or data. Verification activities may take place onsite or offsite.

Desk Review An agency's programs and services are monitored by various strategies including, but not limited to, a review of the agency's grant implementation and supporting documentation, requested records, and phone interviews.

Program Improvement Plans/Action Plans/Corrective Action Plans (CAPs) Activities/strategies are developed by the provider and/or Career and Adult Education to achieve program, data, and/or system improvement or compliance.

Referral for Fiscal Review A selected agency having one or more fiscal issues that do not constitute a finding may be referred to the Department of Education Grants Management or Comptroller's Office for further review or action.

Referral for Data Review A selected agency having one or more data issues that do not constitute a finding may be referred for a data quality review within the FLDOE.

SECTION 2 - MONITORING PROCESSES

Purpose: Compliance and performance monitoring provides the Department with information necessary to assess the fiscal and programmatic accountability of its providers. This section outlines the expectations for, and activities of, compliance monitoring. Activities may take place onsite or offsite.

COMPLIANCE AND PERFORMANCE MONITORING IMPLEMENTATION

Major Activities

The following activities may be included as part of the monitoring process:

- Communication and Notification
- Interviews: administrative, support, instructors, students and families
- Observations: classroom instruction, campus and events
- Records review: administrative, program, personnel, financial
- Data verification
- Desk-top reviews
- Self-Assessment
- Student case studies
- Surveys
- Reporting
- Targeted Technical Assistance
- Development and Review of Corrective Action/Action Plans/Program Improvement Plans
- Verification and Closure

COMMUNICATION

In order to ensure consistent communication between the FLDOE Quality Assurance Team and the individual provider, guidelines for the communication process are established. By designating specific coordinating personnel for each party and by setting timelines, each party will be informed of the expectations for completing the specific tasks required to implement the monitoring processes effectively. The initial notification letter and final report will be addressed to the provider's Agency Head. All remaining written communications will be directed to the provider's designated contact person(s). Although reference is made to communication regarding onsite visits, similar activities may be incorporated into the offsite monitoring strategies. Any exceptions or issues that arise from a monitoring strategy should be addressed with the Director of Quality Assurance and Compliance (Director).

Notification Providers may be notified of a pending monitoring activity by a phone call from the Director within a reasonable time of a scheduled activity. This call will be followed by written notification to the Agency Head. Additional phone calls will be held to coordinate the activity and ensure that the provider is informed of the monitoring components. Electronic mail is considered written notification when used. Unannounced visits may be made at the discretion of the Director or Chancellor.

Designation of Provider Contact The provider is requested to designate a person to act as the primary contact for all monitoring functions. In some circumstances two persons may be designated.

Designation of Quality Assurance Team Contact The Director is the team leader for all monitoring functions, including onsite visits. A co-leader is designated to coordinate the processes specific to a provider or group of providers. The co-leader reports to the Director.

Quality Assurance Team The Quality Assurance Team is the designated group of persons to complete the monitoring processes.

Length of Monitoring Activity The length of the visit may be determined by several factors including the number of grants to be monitored, the location(s) of the program(s), the complexity of the systems or documentation, as well as available resources.

Communication Prior to Onsite Monitoring Prior to a monitoring activity, the designated site team leader will conduct a phone interview with the provider-designated contact person(s). The team leader will identify persons involved with the activity with the provider. The provider will have the opportunity to clarify any issues concerning the data used as a basis for determining the site selection. Finally, the agency will be asked to provide any other information regarding its programs, procedures, or geographic area that may influence activities during monitoring process. Additional documents may need to be forwarded to the Quality Assurance Section of the Division prior to the activity. Training will be provided to targeted providers regarding the monitoring policies, procedures, and protocols.

Entrance Conference The Quality Assurance Team conducts an entrance conference with the provider's official representative(s). The provider may invite other persons as appropriate. The agency may provide an overview of its programs, services and systems which operate with the grant funds. The monitoring team describes the activities that will take place. The team leader may request those records covering the monitoring period up to and including the current records and documentation. Individual and/or group interviews, when used, may be set up in advance; however, during the course of the visit any agency personnel may be requested to participate in an interview. The provider is expected to make every effort to ensure that persons to be interviewed are available. The entrance conference provides an opportunity for both parties to review the schedule and work out any logistics that may contribute to an efficient and effective visit. This time also provides an opportunity for some general discussion among the Quality Assurance Team and the provider's representatives.

Onsite Visits to Specific Locations The format of the onsite visit at a specific location may vary depending on size of location and programs available. Oftentimes at schools and college campuses with multiple programs, we meet with the administrator and other available personnel (i.e. CTE/AE directors, coordinators, guidance counselors, program specialists, department heads, teachers, etc.) to hear briefly about the programs offered (30-45 minutes). When possible, we meet with a group of students participating in the programs (8-10 students for 20-30 minutes). Finally we observe classrooms and conduct records reviews (45-60 minutes). For evening programs we usually introduce ourselves to the Director/Coordinator/Instructor of the program and proceed to visit classrooms and with students (usually 30-45 minutes for total visit).

Daily Debriefing The Quality Assurance Team leader may provide a debriefing to the provider's designated representative at the end of each day of monitoring. The team leader will discuss any issues or concerns found during the monitoring activities and address any provider concerns. This debriefing also enables the provider to locate any additional documentation that may be necessary to substantiate compliance.

Exit Conference Upon the conclusion of the monitoring activity, an exit conference is held. In attendance are members of the Quality Assurance Team and the provider's designated participants. The provider may invite other persons as appropriate. The purpose of the meeting is to exchange information about the provider's strengths and concerns and to report on the general results of the monitoring visit. The exit conference allows the persons present an opportunity to review and discuss any issues addressed during the course of the monitoring activity. Conference calls may be used to facilitate an exit conference. Requests for additional time to submit documentation following the exit conference must be approved by the Director.

Follow-up Activities The Quality Assurance Staff is required to work with the provider to develop and ensure that the Resolution Plan is comprehensive, timely, and completed. Onsite visits or further requests for documentation may be implemented to insure full compliance.

SECTION 3 - SELF-ASSESSMENT

Purpose: The purpose of the Self-Assessment is to enable providers to conduct a self-review to determine the level of compliance in place for each of the grants administered by the Agency. The completion of a Self-Assessment may also be used as a monitoring strategy, thus, directed by the Bureau.

SELF-ASSESSMENT PROTOCOLS

The administration of the Self-Assessment tool is a monitoring strategy that may be used voluntarily or as directed by the Division. Providers may independently choose to apply various protocols on a regular or intermittent basis to ensure continuous compliance with the applicable Federal law, regulations, OMB circulars, state statute, and rules. The protocols that may be used as a Self-Assessment tool include designated protocols contained in this document.

Requirements Periodically the Division may designate certain agencies to complete specific protocols as a Self-Assessment tool, depending on the level of risk indicated in the Risk Assessment process. The Division may require a Self-Assessment at any time; providers will be given a specific timeline to complete the Self-Assessment. All Self-Assessments must be signed by the Agency Head. Once completed by the provider, the results are forwarded to the Division for review. Documentation verifying compliance may be requested of the provider by monitoring staff. Providers are expected to submit requested documents within the specified timelines.

Verification Activities to verify the accuracy of the data submitted to the Division may be completed at any time by the Bureau.

SECTION 4 - RESOLUTION ACTIVITIES

Purpose: Resolution activities identify those specific actions/strategies to be taken by the provider that will address and resolve non-compliance, systemic issues, concerns, and/or the lack of achievement with performance measures or indicators.

CORRECTIVE ACTION PLAN

Once a monitoring strategy is conducted, items of non-compliance are identified. In order to ensure the correction of those items, a Corrective Action Plan is developed. The Corrective Action Plan must identify the finding and the specific strategies the provider will implement to ensure corrective actions have been completed to achieve full compliance. Dates of completion are expected. All Corrective Action Plans must be approved by the Director of Quality Assurance.

ACTION PLAN

Within the results of the monitoring activity, concerns may be noted. Concerns focus on areas that may need to be addressed to increase quality and minimize the potential for future findings. Such concerns are listed in the Action Plan; providers are required to address the concerns noted. All Action Plans must be approved by the Director of Quality Assurance.

PROGRAM IMPROVEMENT PLAN

When a provider is unable to meet the projected level of performance on specific indicators, a Program Improvement Plan may be required. Should program areas already require a plan, duplication is not required. The purpose of the plan is to target specific indicators for improvement. Quality Assurance staff may work in concert with other Division staff to ensure

consistency with the requirements, review, approval and follow-up of Program Improvement Plans.

Components of Plans

One form is used for all plans. The following components shall be included in each plan:

- A statement of the finding/data/concern
- Action(s) by the provider to address the finding/data/concern and ensure full resolution
- Person(s) responsible for implementation of the strategies
- Projected date of completion, if warranted
- Technical assistance needed or provided

The designated Quality Assurance staff is required to work with the provider to ensure that the Plan is comprehensive, timely, and completed. Failure to develop or implement approved resolution plans may be addressed through additional monitoring strategies and/or enforcement activities. All findings and/or concerns must be resolved within one year of the plan's development, unless approved otherwise by the Director.

TARGETED TECHNICAL ASSISTANCE

Non-Compliance As areas of non-compliance are identified locally or across the state, targeted technical assistance may be provided to support full compliance and systemic change for program improvement.

Areas of Identified Need Targeted technical assistance addresses specific areas of identified need for an individual provider, a group of providers, or statewide, based on the frequency of the identified need. This need may be identified through Federal or state reviews and/or audits that demonstrate repeated issues of non-compliance thus, the need for systemic change. For example, targeted technical assistance may be provided statewide as a result of a monitoring finding to ensure that the resolution is consistently and adequately interpreted and addressed. Targeted technical assistance may be provided by the Quality Assurance Team, other Division or FLDOE staff, or through other sources outside the department.

Use of Technology A myriad of delivery modalities are appropriate, including, but not limited to: telephone calls, e-mails, conference calls, Power Point presentations, and technical assistance papers.

SECTION 5 – ENFORCEMENT AND EVALUATION

Purpose: The purpose of Enforcement is to ensure the implementation of the elements associated with the Quality Assurance System for the Division of Career and Adult Education. Enforcement activities are in place to ensure that grants and contracts are implemented in a timely and ethical manner, in full compliance with regulatory requirements, and to support the purpose and goals of the grant.

ENFORCEMENT ACTIVITIES

- Communication with Agency Heads and/or Governing Boards: Communication with governing Boards may be required to focus on the need for immediate and systemic change to continue eligibility for grant.
- Regular Monitoring/Reporting: For a specific period of time, the provider's activities will be monitored on a regular basis; provider may be required to submit regular and frequent reports.

- Grant Conditions: Restriction(s) placed on a specific grant as a result of monitoring activities; conditions may include such actions as directed activities, structured spending, and increased reporting.
- Funding Strategies: Actions taken in regard to the selected provider's funding; may include a range of interventions from directed funding, change in method of reimbursement, to delay or withhold funds.
- State Plans: The State Plans may address additional enforcement activities.
- General Assurances, Terms, and Conditions for Participation in Federal and State Programs: This document must be signed by all agencies and organizations that receive federal or state funds, and may address enforcement activities.
- 34 CFR 80.51: This section of EDGAR addresses enforcement activities which may be applied to certain grants.

INVESTIGATIONS

In response to expressed concerns or complaints, both internal and external, investigations may be conducted in regard to grant(s) administration or implementation by providers. Such activities will be completed in concert with, and reported to, other Department offices as appropriate.

CLOSEOUTS

Providers may be required to submit final reports upon the conclusion or termination of a grant. The Closeout Review Process may address performance and financial reports, inventory and disposition of equipment, record retention and/or additional elements requested by the Department. 34 CFR 80.50

EVALUATION SYSTEM

The purpose of an Evaluation System is to review the components and implementation of the Quality Assurance System, including monitoring activities.

To support continuous improvement, the Quality Assurance team will review any input that is given by stakeholders and providers monitored to make adjustments or changes to the system. As strategies and protocols are used, the team may identify changes that will improve the system. The system will be evaluated and revised as needed on an annual basis.

As the Quality Assurance System is expanded over time, the processes and procedures used internally to administer grants and programs will be evaluated. Various tools may be used including such evaluation tools accessible through federal agencies.

SECTION 1 - PERFORMANCE INDICATORS

Key Performance Indicators – Adult Education

Performance Outcomes

Providers are ranked on the level of achievement on performance indicators specific to the programs of Adult Education and Family Literacy and the data available.

Adult Education and Family Literacy

The Adult Education and Family Literacy Act of 1998 (AEFLA) requires that state and local program administrators establish a comprehensive accountability system to assess the effectiveness of eligible agencies (state departments of education) in achieving continuous improvement of adult education and literacy activities. The performance accountability system also assists in verifying the return on investment of the Federal funds in adult education and family literacy activities. AEFLA mandates that each eligible agency must, at a minimum, use all three of the primary core indicators listed below. However, each eligible agency may establish additional core indicators of performance that it may wish to track in the administration and delivery of its programs.

Each eligible agency must establish levels of performance for each of the core indicators of performance which, at a minimum, are expressed in objective, quantifiable, and measurable form and show the progress of the eligible agency toward continuously improving performance. These levels of performance are identified in the State Plan. The eligible agency and the Secretary of Education must reach an agreement on these identified levels of performance, and the eligible agency must annually prepare and submit to the Secretary of Education a report outlining its progress in achieving the agreed-upon levels of performance. In addition, the eligible agency and local eligible providers negotiate levels of performance (and rates of reimbursement for performance) during the request for proposal (RFP) approval process.

Florida has adopted State Completion Goals (SCG) for each Educational Functioning Level (EFL), except for Adult Secondary Education (ASE) High, for the next five (5) years. Local performance goals will be expressed in percentage and numerical form. Recipients are expected to meet the goals or demonstrate improvement. Achieving Florida's Adult Education State Completion Goals will be based on each recipient's accurate data submission of EFL for enrolled students as reported in the National Reporting System (NRS) Table 4, Column D.

If recipients fail to achieve State Completion Goals for each EFL or demonstrate improvement from the previous year, the recipient may be required to develop and implement an Adult Education Program Improvement Plan (AEP/IP) during the second year of funding.

Primary Core Indicators

- Demonstrated improvements in literacy skill levels in reading, writing, and speaking the English language, numeracy, problem solving, English language acquisition, and other literacy skills
- Placement in, retention in, or completion of postsecondary education, training, or unsubsidized employment
- Attainment of a secondary diploma or its recognized equivalent

Relevant sections of law and regulation: section 212 of AEFLA (Pub. L. 105-220), 34 CFR Part 462, Subpart D; and 34 CFR 76.770, 80.40 and 80.43; also see the current <i>Technical Assistance Paper on Assessments (Assessment TA Paper)</i>			
Discuss your intake and placement process for new students. <ul style="list-style-type: none"> • Are students being placed within a program of instruction based on the lowest score obtained by the student in the respective skill area of the standardized assessment? • Is the National Reporting System (NRS) Test Benchmarks for Educational Functional Levels (EFLs) Table, with the scale scores of each test, used when placing students and reporting student gains? 			
Assessments <ul style="list-style-type: none"> • What standardized assessment instrument does your agency use to pre- and post- test Adult Basic Education (ABE) students? • Do you have a procedure to ensure that students registered in a course are pre-tested with a state-approved assessment within the first 12 hours of instructional activity? • What standardized assessment instrument does your agency use to pre- and post- test Adult English for Speakers of Other Languages (ESOL) or English Literacy and Civics (EL/Civics) students? • Is there a procedure to use an alternative assessment instrument for placement of a student with disabilities if the standard assessment instruments do not accurately measure the student's ability? If so, what instrument(s) is (are) used for this purpose? • Does your program follow the test administration guidelines in each Test Administration Manual (TAM) furnished by the assessment's publisher? • Are your testing administrators certified, if required? 			
Accommodations <ul style="list-style-type: none"> • Is there a procedure to identify and provide accommodations for students with disabilities or other special needs who need to take assessments? • What types of accommodations have been provided in your classes? • Are accommodations ever refused? Why? 			
Test Materials and Security <ul style="list-style-type: none"> • Are all test materials kept in a secure, locked storage before and after the administration of any assessment? • Is there a procedure for documenting test security compromise incidents? If so, who should these incidents be reported to? • Is there a procedure for the disposal of obsolete, damaged and outdated assessment materials that will ensure the security of the assessment materials? • Are all tests precisely accounted for and written documentation kept by test?

BEST Assessment Instruments			
1. If BEST Literacy is used, is this a timed assessment?			
2. Are persons who administer BEST Plus required to complete a one-day workshop and 20 practice administrations before they administer this instrument?			
CASAS Assessment Instruments			
1. Does the agency administer an oral screening form as part of the intake process before placement into the appropriate ESOL program?			
2. When selecting the appropriate instructional level for the student, is the level based on the lower of the two scores?			
3. Are pre- and post-tests given using the same skill area (reading, listening, writing, or math)?			
4. Are both reading and listening skills assessments being used for placement and progression of ESOL students?			
5. Do you have a procedure that provides for a CASAS post-test after a minimum number of hours of instruction? If so, what is your procedure?			

TABE Assessment Instruments	
1.	Which adult education students are assessed using this instrument?
2.	Have persons administering this testing received training sponsored by FDOE and CTB McGraw-Hill, with a certification that they completed training? If so, request a copy of a certification for a person who has recently completed the certification training.
3.	What refresher training, if any, do persons administering this instrument receive?
4.	Does your agency use TABE Forms 9 and 10?
5.	Does your agency use the TABE locator to determine placement in the appropriate level before administering the TABE full battery or survey for the TABE pre-test?
6.	Does your agency give the same level of TABE to all students?
7.	What procedures, if any, exist to determine when a post-test is administered?
8.	Are students retested before they are placed into an EFL when there has been a break in instruction of greater than a year?

DATA VERIFICATION

DATA - Student Records Review – Adult Education

Directions: Student folder(s) will be randomly selected to review corresponding MIS data for selected students. Include students for whom performance was claimed in a specified grant year. This requires a printout or other proof of the students who contributed to the agency performance for the grant(s) during the given year. Initial only those items reviewed and make comments as necessary.

Initials/ NA	Document/ Process	Comments
	Attendance is captured in agency MIS and matches information in student folder.	
	Individual student subtest reports in student folders match student test data from MIS data system.	
	Placement in classroom instructional level is determined by pre-test results.	
	EFL (Educational Functioning Level) level gains matches the student testing results found in the student folder, MIS results reported for the student, and grants printout or other documentation of which students performed under AEFLA grant.	
	Subsequent test report indicates variance of the form of the test from the previous form given (for example, M9 then M10).	
	Subsequent test level is determined by previous test scores.	
	Student class work is based upon assessment results.

SECTION 1 - PERFORMANCE INDICATORS

Key Performance Indicators

Career and Technical Education

Section 113 of the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV) establishes and supports the development of a state and local accountability system that will assess the effectiveness of the state and local funding recipients in achieving progress in career and technical education (CTE). State-developed performance measures must consist of the core indicators listed below, any additional valid and reliable indicators that the state determines, and the "state adjusted levels of performance" for the indicators. These levels of performance must be expressed in percentage or numerical form and require continual improvement in the performance of CTE students. Information regarding the performance measures must be included in the State Plan. The revised State Plan for Florida is submitted to the U.S. Secretary of Education annually.

The Division of Career and Adult Education will negotiate State Adjusted Levels of Performance for each core indicator with the United States Department of Education (USDOE), Office of Vocational and Adult Education (OVAE), for the first, third, and fifth years. Local recipients must accept the state negotiated levels of performance or negotiate with the state for new levels for each of the core indicators.

Each state must submit a report to the Secretary each year regarding the state's progress in achieving its performance levels, including the performance of special populations. The state must identify and quantify gaps in performance between groups of students, and describe the progress of these students. The state report is a compilation of reports sent to the state by local recipients.

The Division of Career and Adult Education has developed accountability guidelines and operational procedures for secondary and postsecondary performance measures. These guidelines are reviewed annually and major changes in operational procedures are vetted with Management Information System (MIS) reports coordinators during standing meetings of FLDOE Community College Technical Center Management Information Systems. Operational guidelines and procedures for secondary level measures, postsecondary-college credit measures, and postsecondary-adult level measures can be found at http://www.fldoe.org/workforce/perkins/perkins_resources.asp.

Florida's 2013-2014 State Performance Targets are as follows:

Secondary Level

- 1S1 Academic Attainment in Reading = 66.33%
- 1S2 Academic Attainment in Math = 88%
- 2S1 Technical Skill Attainment = 85.65%
- 3S1 School Completion = 95.18%
- 4S1 Student Graduation Rates = 78.5%
- 5S1 Placement = 80.28%
- 6S1 Nontraditional Participation = 31.5%
- 6S2 Nontraditional Completion = 95.89%

Adult Level (clock hour)

- 1A1 Technical Skill Attainment = 82.5%
- 2A1 Completion = 58.75%
- 3A1 Student Retention or Transfer = 56.06%
- 4A1 Student Placement = 76.43%
- 5A1 Nontraditional Participation = 12.31%
- 5A2 Nontraditional Completion = 17.5%

College Level (college credit)

Program Improvement Plan

If the Division of Career and Adult Education determines that an eligible recipient has failed to achieve at least 90% of an agreed-upon local adjusted level of performance for any of the core indicators of performance described in section 113(b)(4) of the Act, the eligible recipient will be required to develop and implement a Program Improvement Plan for that core indicator to be implemented during the first program year succeeding the program year for which the eligible recipient failed to meet the agreed upon local adjusted level of performance for that indicator. Beginning with the 2010-11 grant award year, Program Improvement Plans are required as a component of the RFA.

In developing a program improvement plan, the eligible recipient must consult with the Division of Career and Adult Education and appropriate agencies, individuals, and organizations in accordance with 113(b)(4)(C)(ii)(11) of the Act.

Section 113(b)(4)(C)(ii)(II) of the Act: Identify and quantify any disparities or gaps in performance between any such category of students and the performance of all students served by the eligible recipient under this Act.

Categories of students disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged...

Section 1111(b)(2)(C)(i)(v)

includes separate measurable annual objectives for continuous and substantial improvement for each of the following:

- (I) The achievement of all public elementary school and secondary school students.
- (II) The achievement of--
 - (aa) economically disadvantaged students;
 - (bb) students from major racial and ethnic groups;
 - (cc) students with disabilities; and
 - (dd) students with limited English proficiency

Local Use of Funds - Requirements for Uses of Funds

Statutory Authority: Perkins IV, Section 135

Directions: Response or verification should be provided in the space following the inquiry; spaces will expand to accommodate explanation.

Funds made available to eligible recipients under this part **shall** be used to support career and technical education programs that ensure the following:

Integration of academics with CTE programs

1. How do you integrate academics with CTE?
2. How often does this integration occur?
3. Do you have common lesson planning time for CTE and academic teachers?

Link CTE at the secondary and postsecondary level

1. Do you offer at least one program of study?
2. Does the agency have programs of study that:
 - a. incorporate secondary education and post-secondary education elements;
 - b. include coherent and rigorous content aligned with challenging academic standards and relevant career and technical content in a coordinated, non-duplicative progression of courses based on grade level that align secondary education with postsecondary education;
 - c. may include the opportunity for secondary education students to participate in dual or concurrent enrollment programs or other ways to acquire postsecondary education credits; and
 - d. lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree?

Students have strong experience in and understanding of all aspects of an industry, which may include work-based learning experiences

1. How do you provide students with strong experience in and understanding of all aspects of industry?
2. What work-based learning experiences do you offer?

Develop, improve, or expand the use of technology in career and industries

1. What training in use of technology is provided to CTE teachers, faculty and administrators?
2. Is distance learning included with the training?
3. How do you provide academic and CTE skills for students that lead to entry into technology fields?
4. How do you encourage schools to collaborate with technology programs to offer voluntary internships or mentoring including programs that improve the mathematics and science knowledge of students?

Provide professional development programs

1. Describe how comprehensive professional development programs are offered for CTE teachers, administrators, counselors, etc. to address effective practices/teaching including in-service and pre-service training regarding:
 - a. CTE and academic integration, provided jointly with academic teachers to the extent practicable;
 - b. skills based on research that includes promising practices
 - c. practices to improve parental and community involvement
 - d. scientifically-based research and data to improve instruction
 - e. programs to ensure that those persons involved in the direct delivery of educational services to CTE students remain current in all aspects of industry
 - f. internship programs that provide relevant business experience
 - g. effective use and application of technology to improve classroom instruction

Develop and implement program evaluations

1. How do you develop and implement evaluations of the CTE programs?
2. How do you assess that the needs of special populations are being met?

Initiate, improve, expand, and modernize quality career and technical education programs, including relevant technology

1. What steps are taken to initiate a quality CTE program?
2. If need is indicated, how do you implement improvement or expansion of programs?
3. How are program updates accomplished?
4. How do you include relevant technology in the above-mentioned activities?

Provide services and activities that are of sufficient size, scope, and quality to be effective

See also Local Plan Section 135.

Preparing special populations, including single parents and displaced homemakers for high skill, high wage, or high demand occupations that will lead to self-sufficiency

1. How do you prepare special populations enrolled in CTE programs for high-skill, high-wage, or high-demand jobs?
2. What accommodations or modifications are made for students with disabilities?
3. What activities are used to prepare single parents and displaced homemakers for these jobs?
4. Give an example that illustrates these efforts.

Local Uses of Funds - Permissive

Statutory Authority: Perkins IV, Section 135(c)(1-20)

Directions: If your grant indicates that Perkins funds will be used for any of the twenty permissive uses of funds, mark a Y (Yes) in the left column. Answer the following questions for the permissive criterion(a) of the twenty that apply. Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year and only to the extent that circumstances do not permit the operation of classes or attendance at classes after regular working hours; otherwise, such compensation is unallowable.
 - c. Costs of tuition, fees, training materials, and textbooks (but not subsistence, salary, or any other emoluments) in connection with full-time education, including that provided at the organization's own facilities, at a post-graduate (but not undergraduate) college level? (Allowable only when the course or degree pursued is related to the field in which the employee is now working or may reasonably be expected to work, and only where the costs receive the prior approval of the awarding agency.)
 - d. Costs of attendance of up to 16 weeks per employee per year at specialized programs specifically designed to enhance the effectiveness of executives or managers or to prepare employees for such positions? (These costs include enrollment fees; training materials; textbooks; and related charges; employees' salaries; subsistence; and travel. Costs allowable under this paragraph do not include those for courses that are part of a degree-oriented curriculum, which are allowable only to the extent set forth in ii and iii above.)
 - e. Maintenance expense, and normal depreciation or fair rental, on facilities owned or leased by the organization for training purposes?
 - f. Contributions or donations to educational or training institutions, including the donation of facilities or other properties, and scholarships or fellowships?
 - g. Training and education costs in excess of those otherwise allowable under subparagraphs ii and iii above with prior approval of FLDOE? To be considered for approval, the organization must demonstrate that such costs are consistently incurred pursuant to an established training and education program, and that the course or degree pursued is relative to the field in which the employee is now working or may reasonably be expected to work.
