SUBJECT: Extension of Executive Order 20-52

Colleagues,

Today, the Governor issued Executive Order 20-166. It extends the state of emergency declared in Executive Order 20-52 for 60 days. Please be reminded of the content in attached matrix (second PDF). As many of you know, many of the simulation accommodations associated with our health science programs are attached to the life of Executive Order 20-52, which is now extended.

Please do not hesitate to contact us, or the appropriate DOH official, should you have any questions.

Best,

Henry

Henry Mack
Chancellor of Career and Adult Education

Subject: DOH Emergency Orders and CTE Health Science Programs

Statewide Email to: Florida College System Workforce Administrators, District Technical Center Directors, and District Career and Technical Education Directors

Colleagues,

The attached matrix was designed to help provide clarity around the waivers the Florida Department of Health (DOH) has recently issued. As many of you undoubtedly already know, these waivers allow for certain simulation and videoconferencing in place of live patient contact requirements. Of particular note, we would like to bring to your attention to new waivers provided in DOH EO 20-010 which provides for the following:

- Emergency medical services training programs may, with the approval of the training program medical director, substitute supervised remote live videoconferencing or simulation for clinical, and field internship requirements of Florida Administrative Code Rule 64J-1.020(6), until the expiration of Executive Order No. 20-52, unless extended.

Again, please see attached and do not hesitate to contact us, or the appropriate DOH official, should you have any questions. The DOH contact is listed in the matrix.
