CAREER AND ADULT EDUCATION

CAREER AND PROFESSIONAL EDUCATION ACT ENROLLMENT AND PERFORMANCE REPORT, 2018-19

At a Glance

In academic year 2018-19, the 11th year of implementation of the Florida Career and Professional Education (CAPE) Act, school districts registered 1,757 high school and 301 middle school career and professional academies, representing 52 of Florida's school districts as well as Florida State University School (FSUS). In addition, the CAPE Act was amended in 2012-13 to include career-themed courses. School districts registered 1,233 unique career-themed courses, representing all of Florida's 67 school districts, as well as the Florida Virtual School, FSUS, and Florida A&M University Laboratory School. This study found the following regarding enrollment patterns and student performance.

- The most frequent career cluster represented by academies was Information Technology with 290 registered high school and middle school academies followed by the Arts, A/V Technology and Communication with 255.
- High school CAPE participants were most likely to be ninth graders and middle school CAPE participants were most likely to be eighth graders.
- The distribution of students by race and gender among CAPE participants was similar to that of non-academy students.
- In the 2018-19 school year, 106,305 CAPE participants earned 125,066 certifications with a passing rate of 68.3 percent.
- In the 2018-19 school year, 35,911 students earned 61,811 CAPE digital tools with a passing rate of 88.2 percent.
- Middle school and high school CAPE participants had higher average Grade Point Averages (GPAs) than their non-CAPE counterparts.
- Middle school and high school CAPE participants were slightly less likely to have been chronically absent than their non-CAPE counterparts.
- There was no clear pattern indicating that CAPE participants were more or less likely to have been subjected to disciplinary action than non-CAPE students. However, middle school CAPE participants were less likely than their non-CAPE students to have received disciplinary action.
- High school CAPE participants were less likely to have dropped out of school than non-CAPE students.
- Students who earned a certification were significantly more likely to take Advanced Placement or dual enrollment courses than students who did not earn a certification.

- The earning of industry certifications is correlated with higher student performance among high school students.
- Academy students who graduate with an industry certification outperform the academy students who graduate without an industry certification, with a higher placement rate in employment or postsecondary education.

Introduction

According to section 1003.492(5), Florida Statutes (F.S.), the Florida Department of Education (FDOE) shall conduct an annual analysis of student participation and performance in industry certified secondary career and technical education programs authorized by the CAPE Act. Performance indicators for students enrolled in career and professional academies (also referred to as CAPE academies or simply academies in this report) and students enrolled in career-themed courses include, but are not limited to, graduation rates, retention rates, Florida Bright Futures Scholarship awards, additional educational attainment, employment records, earnings, industry certification, return on investment and employer satisfaction. The results of this study shall be submitted to the President of the Senate, the Speaker of the House of Representatives, and the Governor annually by December 31.

Background

In 2007 the Florida Legislature passed the CAPE Act. The purpose of the act was to provide a statewide planning partnership between the business and education communities in order to attract, expand and retain targeted, high-value industry and to sustain a strong, knowledge-based economy. The objectives of the act are as follows:

- To improve middle and high school academic performance by providing rigorous and relevant curriculum opportunities;
- To provide rigorous and relevant career-themed courses that articulate to postsecondary-level coursework and lead to industry certification;
- To support local and regional economic development;
- To respond to Florida's critical workforce needs; and
- To provide state residents with access to high-wage and high-demand careers.

To implement the legislation, the CAPE Act created statewide partnerships among the FDOE, the Florida Department of Economic Opportunity (FDEO) and CareerSource Florida. Section 1003.491(2), F.S., requires that each district school board develops a three-year strategic plan to address and meet local and regional workforce demands. This plan must be developed in collaboration with a district's local workforce board and local postsecondary institutions. A required element in this plan was the provision for at least one operational career and

professional academy per school district, pursuant to s. 1003.492(2), F.S., by the beginning of the 2008-09 school year. Beginning with the 2012-13 school year, the academy requirement was replaced with a requirement that each school district shall offer at least two career-themed courses.

Career and Professional Academies and Career-themed Courses

A career and professional academy is a research-based program that integrates a rigorous academic curriculum with an industry-specific curriculum aligned directly to priority workforce needs established by regional workforce boards or FDEO.

A career-themed course is a course or a course in a series of courses that leads to an industry certification on the CAPE Industry Certification Funding List. A career-themed course is designed to have an industry specific curriculum aligned to priority workforce needs established by regional workforce boards or FDEO.

According to s. 1003.493(4), F.S., each career and professional academy and secondary school providing a career-themed course must:

- 1) Provide a rigorous standards-based academic curriculum integrated with a career curriculum;
- 2) Include one or more partnerships with postsecondary institutions, businesses, industry, employers, economic development organizations or other appropriate partners from the local community;
- 3) Promote and provide opportunities for students to earn, at a minimum, the Florida Gold Seal Vocational Scholars award pursuant to s. 1009.536, F.S.;
- 4) Provide instruction in careers designated as high skill, high wage, and high demand by the regional workforce development board, the chamber of commerce, economic development agencies or the FDEO;
- 5) Deliver academic context through instruction relevant to the applicable career, including intensive reading and mathematics intervention;
- 6) Offer applied courses that combine academic content with technical skills; and
- 7) Provide instruction resulting in competency, certification or credentials in workplace skills.

Districts are required to annually register with FDOE career and professional academies and career-themed courses that meet the requirements of s. 1003.493, F.S., during registration

windows. Superintendents certify that each registered academy and career-themed course meet all of the requirements in statute.¹

Industry Certifications

A key component of this act is a focus on industry certifications that are critical to Florida's employers. Industry certification is defined in Florida Statutes as follows:

Industry certification as used in this section is a voluntary process through which students are assessed by an independent, third-party certifying entity using predetermined standards for knowledge, skills, and competencies, resulting in the award of a credential that is nationally recognized and must be at least one of the following: within an industry that addresses a critical local or statewide economic need; linked to an occupation that is included in the workforce system's targeted occupation list; or linked to an occupation that is identified as emerging.²

The act required that FDOE "develop and adopt rules for implementing an industry certification process" as an essential element of implementing the new law. As of the 2014-15 year, the process described in Rule 6A-6.0573, Florida Administrative Code (F.A.C.), includes two stages. In the first stage, CareerSource Florida produces a list of recommended industry certifications that ensure skill proficiency, address emerging labor market and industry needs, and are based on the highest available national standards. These recommendations are reviewed and approved by the CareerSource Florida board and must be annually published according to the requirements of s. 1003.492(2)(4), F.S. This list is published annually on March 1.

From this list of recommended industry certifications, FDOE develops the CAPE Industry Certification Funding List in the second stage of the process. This list is a subset of the CareerSource Florida Board recommendations and is based on the following criteria.

- 1) The certification must be achievable by students in a secondary level program.
- 2) The certification must require a minimum of 150 hours of instruction.

Additionally, the Florida Department of Agriculture and Consumer Services (DACCS) may recommend industry certifications for farm occupations.

¹ 6A-6.0573 (14), Florida Administrative Code

² Section 1003.492 (2), Florida Statutes

Funding Incentives

For each student enrolled in a registered career-themed course who earns a certification on the CAPE Industry Certification Funding List, the district of instruction may earn add-on full-time equivalent (FTE) student membership for the following year's funding calculation in the Florida Education Finance Program (FEFP).³ Certifications earned through dual enrollment are not eligible for additional FTE. The following table provides a summary of the types of fundable certifications, certificates, and courses:

Type of Certification/ Certificate/Course	Description	Funding Weight
CAPE Digital Tool Certificates	These are assessments of digital skills in the following areas: word processing; spreadsheets; sound, motion, and color presentations; digital arts; cybersecurity. The certificates are available to students in elementary school and middle school grades.	0.025 FTE
CAPE Industry Certifications	These are industry certifications that do not articulate for college credit or do articulate for up to 14 college credits based on a statewide articulation agreement. ⁴ The certifications are available to students in grades six through 12.	0.1 FTE, OR 0.2 FTE for certifications with 1-14 articulated credits
CAPE Acceleration Industry Certifications	These are industry certifications that articulate for 15 or more college credit credits based on a statewide articulation agreement.	0.5 FTE for certifications with 15-29 articulation credits, 1.0 FTE for certifications with 30 or more articulated credits
CAPE Innovation Courses	These courses combine academic and career performance outcomes with embedded industry certifications.	0.3 FTE

CAPE Industry Certifications and CAPE Acceleration Industry Certifications must be earned in career-themed courses to be eligible for funding. Funding for CAPE Digital Tool Certificates is not dependent upon enrollment in a career-themed course or academy. For CAPE Innovation

³ Section 1011.62(1)(o), Florida Statutes

⁴ Gold standard articulation agreements are approved by the State Board of Education in Rule 6A-10.0401, F.A.C. A gold standard articulation agreement provides articulated course credit towards specific Associate in Applied Science (AAS), Associate in Science (AS) and College Credit Certificate (CCC) programs.

Courses, funding is based upon successful completion of the industry certification exam and earning college credit from the academic exam (Advanced Placement for the courses implemented to date).

Elementary and middle school students are capped at 0.1 FTE per fiscal year for the CAPE additional FTE calculation. The 2018-19 activity will be funded with above categories and funding weights in the 2019-20 FEFP.

The 2018-19 FEFP calculation for add-on FTE for industry certifications was based upon 2017-18 data reporting and funded based upon the funding categories and weights on the 2017-18 CAPE Industry Certification Funding List. For this same year, students enrolled in career-themed courses who earned industry certifications generated 18,404.80 additional FTE in the K-12 funding formula. The estimated value of this FTE in the FEFP calculation is about \$77.4 million.

Accountability

An accountability mechanism included in the act requires that the three-year strategic plan must be amended to include specific strategies to improve the passage rate if 50 percent of students taking industry certification exams in a career and professional academy or career-themed course do not pass the exam. The law was amended in 2012, striking requirements related to specific pass rates required to enroll new students in existing courses.

Rule 6A-6.0573, F.A.C., Industry Certification Process, provides for test administration procedures for all written examinations associated with earning industry certifications. To report industry certifications, the following procedures must be followed for all written examinations:

- Exam is not proctored by the individual providing the direct instruction for the industry certification or certificate, except under extremely limited conditions.
 - If only one individual is approved by the certifying agency as a proctor, the teacher may proctor the exams and must be independently monitored by a second individual who does not provide direct instruction for the industry certification content to the individuals taking the test(s).
- Exam questions are delivered in a secure manner and paper-based tests are not available to the proctor for an extended period of time.
- Exam is scored by certifying agency (cannot be scored by anyone at the district).
- Exam is administered in accordance with the certifying agency procedures.
- Exam must not have been administered more than three times during the academic year with a minimum of 20 days between test administrations.

Middle School Academies and Career-themed Courses

Changes to the law in 2012 required each school district to plan the development of at least one middle school CAPE academy or career-themed course.⁵ Middle school academies and career-themed courses must:

- 1) Be aligned with at least one high school CAPE academy or career-themed course offered in the district and maintain partnerships with local business and industry and economic development boards;
- 2) Provide instruction in courses leading to careers in occupations designated as high skill, high demand and high wage;
- 3) Integrate content from core subjects;
- 4) Integrate career content with intensive reading and mathematics;
- 5) Maximize opportunities for students to earn high school credit;
- 6) Provide access to virtual instruction courses;
- 7) Provide instruction from teachers certified in the career subject matter;
- 8) Offer externships; and
- 9) Provide personalized student advisement.

CAPE Digital Tool Certificates

Sections 1003.4203 and 1008.44, F.S., authorized CAPE Digital Tool Certificates, available to students in elementary and middle grades. These certificates are eligible for an additional 0.025 full-time equivalency (FTE) membership in the FEFP. CAPE Digital Tool Certificates are described in s. 1003.4203, F.S., as “targeted skills to be mastered for the certificate include digital skills that are necessary to the student’s academic work and skills the student may need in future employment.” FDOE is responsible for identifying up to 15 CAPE Digital Tool Certificates for the CAPE Industry Certification Funding List in the areas of word processing; spreadsheets; sound, motion, and color presentations; digital arts; cyber security; and coding each academic year.

For the 2018-19 CAPE Industry Certification Funding List, the State Board of Education approved 15 certificates, of which all of these certificates were attempted and earned. These certificates are included in the 2019-20 FEFP calculation.

CAPE Innovation Courses

Sections 1003.4203 and 1008.44, F.S., authorize a type of course which combines academic and career content with performance expectations that will result in college credit and industry

⁵ Section 1003.4935, Florida Statutes

certification attainment. According to the statutory framework, each approved CAPE Innovation Course must have at least two third-party assessments, one of which must be associated with an industry certification on the CAPE Industry Certification Funding List. These courses are eligible for an additional 0.3 FTE membership in the FEFP.

All CAPE Innovation Courses that are partnered with AP course content use the current College Board Advanced Placement (AP) course descriptions and require AP teachers to deliver a series of activities that emphasize applied learning of the AP content. The goal of this unique instructional approach is to prepare students for success on AP exams while learning new knowledge and skills associated with CAPE Industry Certifications. The following table lists the 2018-19 CAPE Innovation Courses and performance expectations.

CAPE Innovation Course	Academic Performance Expectation	Associated CAPE Certification
AP Microeconomics Innovation	"3" or higher on the AP exam	Microsoft Office Specialist for Excel (2013 or later)
AP English Language and Composition Innovation	"3" or higher on the AP exam	Microsoft Office Specialist for Word (2013 or later)
AP Studio Art 2-D Design Portfolio Innovation	"3" or higher on the AP exam	Adobe Certified Associate for Adobe Photoshop (Creative Cloud 2015 or later)
AP Computer Science A Innovation	"3" or higher on the AP exam	CIW Javascript Specialist certification

Scope

For the purposes of this report, CAPE participants include:

- Students enrolled exclusively in an academy
- Students enrolled exclusively in a career-themed course
- Students enrolled in an academy and a career-themed course

Beginning with the 2013-14 year, only students enrolled in career-themed courses are eligible for add-on FTE student membership for certifications earned. For this reason, in the majority of instances, students are found enrolled in at least one career-themed course. This analysis addresses the following questions.

- 1) How many career and professional academies and career-themed courses are there, and where are they located?

- 2) What are the characteristics of CAPE participants?
- 3) How many and what type of industry certifications have CAPE participants earned?
- 4) How did CAPE participants perform academically compared to other students?
- 5) What were the postsecondary and employment placement outcomes for CAPE participant graduates?

Method

Data were extracted from FDOE Student Information System for academic year 2018-19 (Survey five as of November 5, 2019).⁶ Data on career and professional academy characteristics are from FDOE academy registration database. Data on employment and postsecondary enrollment were obtained from the Florida Education and Training Placement Information Program (FETPIP). For the purposes of this report, a CAPE participant is a student who was enrolled in a registered career-themed course or an academy. Students reported earning only CAPE Digital Tool Certificates were not included as CAPE participants.

Findings

Profile of Career and Professional Academies and Career-themed Courses

In academic year 2018-19, 1,757 high school career and professional academies were registered in Florida, and 1,316 (74.9 percent) of these academies reported student enrollments. In 2018-19, there were 301 registered middle school academies, and 172 (57.1 percent) of these academies reported student enrollments. All but 15 of Florida's 67 school districts registered at least one career and professional academy with FDOE. The five districts with the most registered academies (high school and middle school) were Miami-Dade (389), Broward (218), Hillsborough (161), Palm Beach (107) and Polk (107).

In academic year 2018-19, 1,233 unique career-themed courses were registered in Florida. All of Florida's 67 school districts registered at least one career-themed course with FDOE and there were 453,377 students who were enrolled in at least one career-themed course. The five districts with the most registered courses (which can include duplicate courses at multiple schools) were Broward (494), Miami-Dade (471), Palm Beach (350), Orange (308), and Polk (287). Tables 1a and 1c show the distribution trend of Florida's registered career and professional academies and career-themed courses and enrollment by school district.

⁶ Career and professional academy students were identified using the *Career and Professional Academy Identifier* data element (#107775). Career-themed courses were identified using Appendix FF.

⁷ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

⁸ Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

⁹ Unduplicated count of registered courses by district. Courses were reported at the school of instruction level. If the same course was registered at more than one school in a district, it was only included once.

¹⁰ Unduplicated count of students enrolled in at least one career-themed course. If the district of instruction and the district of enrollment were different, students are reported in their district of enrollment.

¹¹ Unduplicated count of students enrolled in at least one registered academy.

¹² Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the student and district. Students are counted more than once if they are reported in more than one district during the academic year.

Academy Curriculum

The curricular foci of registered academies fall under specific career clusters. A career cluster is a broad group of related occupations based on commonalities in knowledge and skills required to perform job tasks. The most frequent career cluster represented by academies registered in academic year 2018-19 was Information Technology with 201 high school and 89 middle school academies (see Table 2). The second most frequent cluster represented was Arts, A/V technology, and Communication with 241 high school and 14 middle school registered academies.

Table 2
Number of Registered Career and Professional Academies by Career Cluster, 2018-19

Primary Career Cluster	Number of High School Academies	Number of Middle School Academies
Arts, A/V Technology & Communication	241	14
Health Science	225	11
Hospitality & Tourism	202	19
Information Technology	201	89
Engineering and Technology Education	176	36
Agriculture, Food, and Natural Resources	135	26

Source: Career and Professional Academy Registration Database

In academic year 2018-19, there were 414,776 CAPE participants in grades 9-12, representing 45.3 percent of the entire high school population.¹⁸ There were 91,045 CAPE participants in grades 6-8 representing 12.9 percent of the middle school population. The distribution of high school CAPE participants was relatively similar among all grade levels with the highest population in ninth grade. Compared with high school participants, middle school CAPE participants represented less than 18.0 percent of the overall CAPE participants with the highest enrollment in eighth grade (see Table 3).

¹⁸ Based on data from the FDOE Student Information System as of October 31, 2019.

Figure 1
Percentage of CAPE Participants¹⁹ by Grade Level, 2018-19

¹⁹ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Demographic Profile

Table 4 shows the distribution of CAPE participants (high school and middle school) by race/ethnicity and gender categories was similar to that of non-CAPE participants. Among CAPE participants, more were male (53.6 percent) than female (46.4 percent). Approximately 39 percent of CAPE participants were White, and the largest minority populations were Hispanic (33.1 percent) and Black (21.3 percent). Compared to CAPE participants, a slightly lower percentage of non-CAPE participants were White (37.5 percent), and a slightly higher percentage were Hispanic (33.8 percent) and Black (22.1 percent).

Table 4
Distribution of CAPE Participants²⁰ and Non-CAPE Participants²¹ by Gender and Race/Ethnicity, 2018-19

CAPE Status	Gender		Race/Ethnicity						
	Female	Male	American Indian	Asian	Black	Hispanic	More Than One Race	Pacific Islander	White
Participant	46.4%	53.6%	0.3%	2.8%	21.3%	33.1%	3.1%	0.1%	39.2%
Non-Participant	49.8%	50.2%	0.3%	2.8%	22.1%	33.8%	3.4%	0.2%	37.5%

Performance

This section addresses the performance of students enrolled in career and professional academies and career-themed courses. The indicators addressed include the following:

- 1) The number and percentage of CAPE participants obtaining industry certifications;
- 2) Cumulative grade point average of CAPE and non-CAPE participants;
- 3) Student engagement indicators of CAPE and non-CAPE participants, including chronic absenteeism, disciplinary actions and dropout rates; and

²⁰ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

²¹ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

- 4) Postsecondary readiness as indicated by the percentage of CAPE and non-CAPE participation in Advanced Placement and dual enrollment courses and eligibility for Florida Bright Futures Scholarships.²²

Performance levels on these indicators are reported at the aggregate state-level, summing up all CAPE and non-CAPE participants statewide. Performance levels for schools with CAPE participants can be found in Appendix B.

Industry Certification

Among the 505,821 CAPE participants, a total of 183,175 industry certifications on the CAPE Industry Certification Funding List were attempted in 2018-19, of which 125,066 were earned, resulting in a pass rate of 68.3 percent. The CAPE Industry Certification Funding List contains 264 different certifications, with at least one CAPE participant attempting 193 of the listed industry certifications. The top three were Microsoft Office Specialist (MOS) Bundle, Adobe Certified Associate (Photoshop), and Certified Internet Web (CIW) Internet Business Associate (see Table 5a).

Among the 183,175 certification attempts by CAPE participants, certifications weighted 0.1 were most commonly attempted representing 52.3 percent of attempts followed by weight-level 0.2, which represented 47.7 percent of all certification attempts by CAPE participants.

Table 5a
Industry Certifications Attempted and Earned by CAPE Participants²³ in 2018-19

Industry Certification Title	Funding Weight	Certifications Attempted	Certifications Passed	Pass Rate
Microsoft Office Specialist (MOS) Bundle Certification (3 of 6)	0.2	28,924	22,211	76.8%
Adobe Certified Associate (ACA) - Photoshop (Creative Cloud 2015 or later)	0.1	25,585	17,000	66.4%
Certified Internet Web (CIW) Internet Business Associate	0.1	12,443	9,615	77.3%

CAPE Digital Tool Certificates may be earned by elementary and middle school students. There were 70,045 digital tool attempts in 2018-19 of which 61,811 were earned, resulting in a pass rate of 88.2 percent. Unlike industry certifications, funding weights for Digital Tool Certificates are set at 0.025 for all certificates.

The higher the grade level of CAPE participants, the greater the number of industry certifications earned. The largest percentage of certifications (47.8 percent) were earned by 11th and 12th grade students. About 26.0 percent of industry certifications earned by CAPE participants were awarded to 12th graders (see Table 6a). Among 9th graders, 27,529 certifications were earned, representing 22.0 percent of total certifications reported. The progression in the number of certifications as grade level increases is expected given the time and training required to earn industry certifications.

Table 6a
Industry Certifications Earned by Grade Level of CAPE Participants²⁴, 2018-19

Grade Level	CAPE Industry Certifications Earned	CAPE Acceleration Industry Certifications Earned	Total CAPE Certifications Earned	Percent

The higher the grade level, the greater the number of Digital Tools earned with a slight decline in eighth grade. Elementary grade students (grades one through five) earned a total of 1,377 Digital Tools. Students in middle school grades earned a total of 60,434 Digital Tools, with students in the seventh grade (35.6 percent) earning the most at 21,978 Digital Tools.

²⁴ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Table 7a shows the distribution of earned certifications by school district. Miami Dade reported the highest number of reported certifications with 13,275, which represented 10.6 percent of all certifications reported in the state for CAPE participants. Second highest was Palm Beach with 13,158 certifications, or 10.5 percent; followed by Broward with 11,146 certifications, or 8.9 percent. The 125,066 industry certifications earned by CAPE participants represent 65.0 percent of the 192,310 certifications earned in 2018-19. Non-CAPE participants earned 67,245 industry certifications representing 35.0 percent of the total number of certifications earned.

Table 7c shows the distribution of earned CAPE Digital Tool Certificates by school district. Of Florida’s 67 school districts, 46 reported students earning digital tool certificates. St. Johns reported the highest number of reported digital tools with 10,885, which represented 17.6 percent of all digital tool certificates reported, and almost twice the number reported in 2018-19 by St. Johns. Second highest was Seminole with 9,859 digital tool certificates, or 16.0 percent; followed by Lake with 4,561 digital tool certificates, or 7.4 percent.

CAPE Participant Secondary Engagement

Grade Point Average (GPA)

Middle school CAPE participants in 2018-19 had a higher average cumulative GPA compared to the non-CAPE middle school population (see Table 8). High school CAPE participants had a higher average GPA than non-CAPE participants across all grade levels nine through 12.

Table 8
Average Cumulative Grade Point Average of CAPE Participants²⁷ and Non-CAPE Participants²⁸ by Grade Level, 2018-19

School Level	Grade Level	CAPE Participants: GPA	Non-CAPE Participants: GPA
Middle School	6	3.00	2.90
	7	3.05	2.93
	8	3.09	2.92
High School	9	2.73	2.71
	10	2.78	2.69
	11	2.84	2.78
	12	2.91	2.90
All Grades		2.82	2.81

Source: FDOE Student Information System

²⁷ Includes students enrolled in either a registered academy or career-themed course, unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

²⁸ Includes students not reported enrolled in a registered academy or career-themed course, unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Student Engagement

Career and professional academies and career-themed courses were conceived as a way to offer a relevant curriculum to students. Student engagement can be measured through rates of absenteeism, disciplinary actions, graduation and dropping out of school. Middle school CAPE participants were less likely to be chronically absent than non-CAPE middle school participants (see Table 9).²⁹ Among high schools students, which represents the vast majority of CAPE participants, chronic absenteeism was less prevalent than among non-CAPE participants across grades nine through 12.

Table 9
Percentage of CAPE Participants³⁰ and Non-CAPE Participants³¹ Chronically Absent by Grade Level, 2018-19

School Level	Grade Level	CAPE Participants: Chronically Absent	Non-CAPE Participants: Chronically Absent
Middle School	6	8.1%	8.4%
	7	9.9%	10.2%
	8	10.6%	11.7%
High School	9	12.3%	12.5%
	10	14.6%	15.6%
	11	17.0%	18.3%
	12	23.5%	24.9%

Source: FDOE Student Information System

²⁹ Chronically absent is defined as 21 or more unexcused absences for the academic year.

³⁰ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³¹ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

There is no consistent pattern when comparing the incidence of disciplinary actions between CAPE participants and non-CAPE students across grade levels; however, CAPE participants in middle-school grades had lower incidences of disciplinary actions. Overall CAPE participants were slightly less likely than non-CAPE students to have had disciplinary actions taken against them.

Table 10
Percentage of CAPE Participants³² and Non-CAPE Participants³³ with Reported Disciplinary Actions by Grade Level, 2018-19

School Level	Grade Level	CAPE Participants: At Least One Disciplinary Action	Non-CAPE Participants: At Least One Disciplinary Action
Middle School	6	12.8%	14.4%
	7	13.9%	16.2%
	8	13.4%	16.2%
High School	9	16.2%	14.7%
	10	14.4%	14.6%
	11	12.3%	12.0%
	12	10.4%	8.2%

Source: FDOE Student Information System

³² Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³³ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

CAPE participants were less likely to drop out than non-CAPE students, and CAPE participating seniors were more likely to graduate with a standard diploma than non-CAPE seniors. Among CAPE participating twelfth graders, 91.6 percent graduated with a standard diploma compared to 74.5 percent among non-CAPE twelfth graders. The one-year dropout rate for academy students in grades 9-12 (0.6 percent) was 1.5 percentage points lower than that of non-CAPE students (see Table 11) and was lower across all grade levels.

Table 11
Percentage of CAPE Participants³⁴ and Non-CAPE Participants³⁵ Who Dropped Out by Grade Level, 2018-19

School Level	Grade Level	CAPE Participants: Dropout Rate	Non-CAPE Participants: Dropout Rate
High School	9	0.4%	1.5%
	10	0.6%	1.7%
	11	0.6%	2.0%
	12	1.0%	3.3%
All Grades		0.6%	2.1%

CAPE Participant Outcomes

Postsecondary Readiness and Employment

An important goal of the CAPE Act is to prepare students for postsecondary education by making them ready for the academic and technical work and giving them opportunities to earn postsecondary credit while in high school. An indicator of postsecondary readiness is enrollment in accelerated courses (i.e., Advanced Placement, dual enrollment, International Baccalaureate, and Advanced International Certificate of Education courses). Among CAPE participating high school students, 39.3 percent took one or more accelerated courses during the 2017-18 academic year. In comparison, the percentage for non-CAPE participant high school students was 36.3 percent.

³⁴ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁵ Includes students who were not reported enrolled in a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Another indicator of readiness for success in postsecondary education is eligibility for the Florida Bright Futures Scholarship. The eligibility rates for 2017-18 graduates are examined in table 14, as 2018-19 data were not available at the time this report was published.

Post-Graduation Outcomes

Placement data for the 2013-14, 2014-15, 2015-16, 2016-17, and 2017-18 graduate cohorts of CAPE participants and industry certification earners was available. These cohorts indicate that graduates who were CAPE participants and earned industry certifications are more likely to have been placed than the average CAPE participant graduate (see Table 12).³⁶ Because industry certification earners appear in the CAPE participant cohort and vice versa, firm conclusions cannot be drawn through this analysis alone, but the data do suggest that CAPE participation and, more clearly, industry certification, are correlated with and possibly influence positive post-graduation placement. Data for all high school graduates were not available at the time this report was published.

³⁶ The outcome data have limitations. Regarding employment data, graduates employed outside the state of Florida would not be found unless they are in the military or working for the federal government. Some types of workers, e.g. self-employed, are not in the database. No assumptions can be made regarding occupation or wages. Regarding postsecondary placement, graduates enrolled outside the state would not be found.

Table 12
Placement Rates of Various Cohorts of CAPE Participants³⁷ and Industry Certification Earner Graduates Compared to All High School Graduates

Year	High School Graduate Cohort	Found Employed or Enrolled in Postsecondary Education

Data on average earnings over time of high school graduates indicate that industry certification may be correlated with higher earnings than those of the overall high school population. Figure 2 below shows the average estimated earnings (based on one quarter of data) of 2012-13 high school graduates found employed and earning a total dollar amount greater than the equivalent of working 40 hours a week, for the full quarter earning the minimum wage. While academy and industry certification graduates initially earned less, on average, than the general high school population, by the third year industry certification earners surpassed the overall average.

³⁷ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

Figure 2
Average Estimated Annual Fulltime Earnings of CAPE Participants³⁸, Industry Certification Earners, and All High School Graduates, 2012-13 Cohort³⁹

Sources: FDOE Student Information System and Florida Education & Training Placement Information System

Placement rates for 2017-18 graduates who had earned at least one industry certification are shown by certification earned in Table 13 below. This table includes all graduates who earned certifications regardless of whether they were a CAPE participant. The attached Appendix B includes a detailed table showing placement rates by the identified industry certification.

³⁸ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

³⁹ Data for the 2018 All High School Graduates follow-up was not available at the time this report was published.

Comparison of CAPE Participants to Industry Certification Earners

In Table 14 below, CAPE participants and their comparison group peers are disaggregated by industry certification attainment to isolate the characteristics of CAPE participants and industry certification earners independently. The table includes high school students only because four of the indicators are not relevant for middle school students (dropout, graduation, acceleration, and Bright Futures eligibility). The table shows a general trend that, as one moves from the leftmost column (non-CAPE student without certification) to the rightmost column (CAPE student with certification), the performance indicators tend to improve with few exceptions. Both CAPE participants and non-CAPE students who earn certifications performed at a higher level than their non-certified peers.

Table 14
Performance by CAPE Participation⁴⁰ and Industry Certification Attainment, 2018-19,
Grades 9-12 Only

Performance Indicator	Non-CAPE, No Certification	CAPE, No Certification	Non-CAPE + Certification	CAPE + Certification	All High School Students + Certification	All High School Students, No Certification
Average GPA	2.79	2.75	3.11	3.12	3.12	2.78

Five-Year Trends

The number of registered career and professional academies grew from 1,567 in 2011-12 to 2,058 in 2018-19 (see Table 15). In that same time period, the percentage of Florida high school students enrolled in career and professional academies and career-themed courses grew from 21.5 percent to 45.3 percent. The number of CAPE participants earning industry certifications grew from 28,533 in 2011-12 to 106,305 in 2018-19. As CAPE participation increased, the pass rate of academy students taking certification exams dropped from 84.3 percent in 2011-12 to 65.0 percent in 2018-19.

⁴⁰ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

⁴¹ Data was not available for 2018-19 graduates at the time this report was published. 2017-18 graduates are presented here.

Table 15
Five-Year Trends in Career and Professional Participation⁴² Data

Indicator	2014-15	2015-16	2016-17	2017-18	2018-19
Academies Registered	1,878	2,058	1,944	2,032	2,058
Career-themed Courses Registered	14,320	15,382	17,498	17,878	16,327

Return on Investment

As of the 2018-19 year, there were 115 industry certifications with State Board Approved Gold Standard Articulation Agreements of which 107 appear on the 2018-19 CAPE Industry Certification Funding List.⁴³ A gold standard articulation agreement provides articulated course credit towards specific Associate in Applied Science (AAS), Associate in Science (AS) and College Credit Certificate (CCC) programs. For the certifications on the current CAPE Industry Certification Funding List, the available articulated credit ranged from one credit hour to 36 depending on the industry certification and the degree program to which it articulated. The majority of certifications articulated to three credit hours. 20 of the certifications on the funding list had more than one articulation agreement. Students who earned one of these

⁴² Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district and student. Students are counted more than once if they are reported in more than one district during the academic year.

⁴³ Includes articulation agreements for industry certifications that are no longer available from the certifying agency.

would have the option of receiving articulated credit in more than one degree program. In 2018-19 CAPE participants earned 57,288 industry certifications with at least one articulation agreement. Four of the industry certifications earned, FAA Aviation Mechanic Technician - Airframe, CompTIA A+, LEED Green Associate, and Certified Food Safety Manager articulated to more than one program. Table 16 shows the potential value of the college credit obtained through earning the certification.

Table 16

Conclusion

In the 11th year of implementation, the number of career and professional academies, career-themed courses and students enrolled in CAPE courses continues to grow across the state. CAPE participants on average performed better than non-CAPE students on most indicators, and students with industry certifications clearly performed better on all the indicators in this report than non-certified students. Placement data of CAPE participant and industry certification earner graduates indicate that CAPE participant graduates were slightly more likely to be found employed or in postsecondary education and were earning, on average, about the same as the average high school graduate. Graduates earning industry certifications showed consistently higher performance in their placement rate and earnings over time.

⁴⁵ For certifications with multiple articulation agreements resulting in multiple potential college credit amounts, the lowest potential college credit was used to calculate the estimated total value of college credit.

Appendix A

Characteristics of Schools with CAPE Participants, 2018-19

District	School	School Type	Fall 2018 Membership	Number of CAPE Participants ¹	Percent in Academy and/or Career-Themed Course ²	Students Earning One or More Certifications	Percent of CAPE Participants with One or More Industry Certifications

Note: A district may have registered an academy and not appear on this list. Only those schools with CAPE enrollment have been included here.

¹ Includes students enrolled in either a registered academy or career-themed course. Enrollment is unduplicated to the district, school, and student. Students are counted more than once if they are reported in more than one school of instruction during the year.

² Does not include CAPE Digital Tool Certificates.

An * sign indicates there were less than 10 CAPE participants.

** indicates there were fewer than 10 students enrolled in the designated school.

List of Tables and Figures

Table 1a: CAPE Participants in Registered Career and Professional Academies and Career-themed Courses by School District, 2018-19 Page 11

Provides counts, by school district and by middle or high school level, of registered career-themed courses, career and professional academies, academy participants, and CAPE participants

Table 1b: CAPE Participants by Grade Level and Type, 2018-19 Page 16

Provides counts of students, by grade level, who are only registered in career-themed courses, only registered in academies, or who are both registered in a career-themed courses and in academies

Table 1c: CAPE Participants and Industry Certification Attempts by School District, 2018-19 Page 17

Provides counts, by school district and by middle or high school level, of CAPE participants and the number of CAPE participants who attempted an industry certification

Table 2: Number of Registered Career and Professional Academies by Career Cluster, 2018-19 Page 20

Provides a count, by career cluster, or middle and high school academies

Figure 1: Percentage of CAPE Participants by Grade Level, 2018-19 Page 21

A pie chart depicting the percentage of CAPE participants by grade level

Table 3: Percentage of CAPE Participants by Grade Level, 2018-19 Page 21

A table comparing counts of CAPE and Non-CAPE participants, by grade level, as well as providing the percentage of CAPE students by grade and state-wide

Table 4: Distribution of CAPE Participants and Non-CAPE Participants by Gender and Race/Ethnicity, 2018-19 Page 22

A table providing percentage distribution of CAPE participants and Non-CAPE participants by gender and by race/ethnicity

Table 5a: Industry Certifications Attempted and Earned by CAPE Participants in 2018-19 Page 23

A table providing the funding weight, the number of certifications attempted, the number of certifications passed, and the pass rate for industry certifications earned by CAPE participants

Table 5b: CAPE Digital Tool Certificates Attempted and Earned in 2018-19 Page 31

Provides a list of digital tool certifications with a count of certificates attempted and passed as well as a pass rate percentage by certification

Table 6a: Industry Certifications Earned by Grade Level of CAPE Participants, 2018-19 Page 32

Provides a count of CAPE and CAPE acceleration industry certifications earned, by grade level

Table 6b: CAPE Digital Tools Earned by Grade Level of Student, 2018-19 Page 33

Provides a count, by grade level, of the CAPE digital tools earned

Table 7a: Industry Certifications Earned by CAPE Participants by School District and School Level, 2018-19..... Page 33

By school district, this table provides a count of certifications earned by high school and middle school students including totals for all and the percentages of state totals

Table 7b: Number of CAPE Participants who Earned Industry Certification by Count Earned, 2018-19..... Page 36

Provides a count of students by the number of industry certifications earned

Table 7c: CAPE Digital Tool Certificates Earned by School District and School Level, 2018-19 Page 37

By school district, this table provides a count of CAPE digital tool certifications earned by elementary school and middle school students including totals for all and the percentages of state totals

Table 8: Average Cumulative Grade Point Average of CAPE Participants and Non-CAPE Participants by Grade Level, 2018-19..... Page 40

Provides a comparison of the average cumulative GPA of CAPE participants and non-CAPE participants by grade level

Table 9: Percentage of CAPE Participants and Non-CAPE Participants Chronically Absent by Grade Level, 2018-19..... Page 41

Provides a comparison of the percentage of CAPE participants and non-CAPE participants who demonstrated chronic absenteeism, by grade level

Table 10: Percentage of CAPE Participants and Non-CAPE Participants with Reported Disciplinary Actions by Grade Level, 2018-19 Page 42

Provides a comparison of the percentages of CAPE participants and Non-CAPE participants with disciplinary actions by grade level

Table 11: Percentage of CAPE Participants and Non-CAPE Participants Who Dropped Out by Grade Level, 2018-19 Page 43

Provides a comparison of the dropout rates of CAPE Participants and Non-CAPE Participants by grade level

Table 12: Placement Rates of Various Cohorts of CAPE Participants and Industry Certification Earner Graduates Compared to All High School Graduates Page 45

This table compares placement rates of all high school graduates, CAPE Academy participants without industry certifications, and CAPE Academy participants who earned industry certifications.

Figure 2: Average Estimated Annual Fulltime Earnings of CAPE Participants, Industry Certification Earners, and All High School Graduates, 2018-19 Page 46

This line graph visually compares average estimated annual fulltime earnings for three groups: all high school graduates, industry certification earners who graduated, and CAPE participants who graduated over multiple years.

Table 13: Placement Rates of Industry Certification Earner High School Graduates by Certification Funding Weight, 2017-18 Cohort Page 47

By certification weight, this table provides the percentage of Industry Certification Earner Graduates found employed or enrolled in postsecondary education

Table 14: Performance by CAPE Participation and Industry Certification Attainment, 2018-19, Grades 9-12 Only Page 48

This tables compares multiple populations across multiple performance measures for students in ninth through twelfth grade. The populations include Non-CAPE participants who did not earn an industry certification, CAPE participants who did not earn an industry certification, Non-CAPE participants who did earn a certification, CAPE participants who earned an industry certification, all high school students who earned an industry certification, and all high school students who did not earn an industry certification. The performance measures include average GPA, chronic absence, disciplinary actions, dropout rates, 12th graders earning standard diplomas, percentage of students enrolled in at least one accelerated course, and Bright Futures eligible seniors.

Table 15: Five-Year Trends in Career and Professional Participation Data Page 49

This table provides a comparison over five years of various indicators including academies registered, career-themed courses registered, percentage of middle school students participating in CAPE, percentage of high school students participating in CAPE, CAPE participants earning industry certifications, certification pass rates, students earning CAPE digital tools, digital tool pass rates, number of students enrolled in CAPE Innovation courses, and the percent of students meeting all CAPE Innovation requirements.

Table 16: Return on Investment – Industry Certifications and College CreditPage 50

By industry certification, provides a count of students who earned the industry certification, the potential college credits earned through articulation, and the potential value of the industry certification in terms of college credits obtained.

Appendix A: Characteristics of Schools with CAPE Participants, 2018-19Page A-1

By district and school, this table provides characteristics of schools with CAPE participation including school type, school membership, number of CAPE participants, the percent in a CAPE Academy or Career Themed Course, the number of students earning one or more certifications, and the percent of CAPE Participants earning one or more industry certifications.

Appendix B: Placement Rates of Industry Certification Earner High School Graduates by Certification, 2017-18 Cohort, Sorted by Percent Found Employed or Enrolled in Postsecondary EducationPage B-1

By industry certification title, this table provides the certification weight, the number of industry certification earner graduates with valid SSNs, as well as the number and percent of those students found employed or enrolled in postsecondary education.
