

**INTRODUCTION**

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.

If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.

If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

## **Class Size Reduction Planning**

The new Franklin County Schools facility will reduce the need for permanent student stations over the next five years. This facility will contain 1,132 student stations. That is well in excess of the official forecasted COFTE of 829.

## **School Closure Planning**

**Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.**

Apalachicola High School was closed at the beginning of the 2007/08 school year. Carrabelle High School, Chapman Elementary School, and H.G. Brown Elementary School will close at the end of the 2007/08 school year. All Franklin County school children will begin the 2008/09 school at the new Franklin County Schools facility scheduled for completion at the end of 2007/08.
