FACILITIES CAPITAL OUTLAY DATABASE

HISTORICAL DOCUMENTATION

July 1, 2025

Overview
The Facilities Capital Outlay Database has evolved and matured over the years since the original conceptualization in 1989. Understanding how, when, and why data   elements were changed is critical when the Community College and Technical Center MIS (CCTCMIS) responds to requests for information that span several years. The historical change   document outlines additions, deletions, and changes to the Student Database.   This document was created by reviewing existing listings, catalogs, and dictionaries of data elements.

Historical data element change documentation
The short descriptions that follow outline each data element field tracked in the historical data element change document, along with the codes used to document the changes, additions, and deletions to the data elements over the previous years.

Number
Data elements are numbered using a four-digit element number methodology.

Element Name
The full name of the element. Global Changes will be located in this field for changes that affect all data elements in the data element dictionary.

Column Name
The name of the column in DB2 which stores the data element.   Reserved for future use.

Description
A description of the meaning or intended use of the data element.

Change Date
The date the data element was created or changed.

Implement Year
The year the creation or change was implemented.

Change Code
Codes used for documenting the additions, deletions, or changes made   to the data elements.

EL Data Element
NU Data Element Number
EN Data Element Name
CN Column Name
DS Data Element Description
TV Data Element Table Value
ED Data Element Edit Criteria
PD Data Element Physical Description

Change
The data element as reflected after the change.

Reason
The reason why the addition, deletion, or change was made to the data element.

INDEX
Included within this section is the historical data element dictionary   index. This index identifies the data element number and name. The data elements are arranged   in data element number order for the Facilities Capital Outlay Database
