Subject: SYG x000 Course Framework and Syllabi Survey

Dear CAOs,

I write today regarding two items related to the review of SYG 1000/2000: Introduction to Sociology.

First, please find the final framework for SYG x000 attached to this email. As you recall, we provided a draft of this framework that has been developed by the sociology faculty workgroup. The sociology workgroup created this framework in order to align SYG x000 with Florida's statutes. The final framework is attached for your use in the spring 2026 semester, if you choose.

Beginning with the summer 2026 term, institutions that include SYG x000 as a general education course option will use this framework to ensure compliance with state statutory requirements.

Second, we are collecting the current syllabi you are using for your spring 2026 courses. Please compile and upload the syllabi for all current sections of SYG x000, in the ShareFile folder that corresponds to your institution by January 30th.

Here is the link: <https://fldoe.sharefile.com/i/i9af5248b58b4f1ca>

You will be prompted to register before being able to upload. Anyone may register, so feel free to forward this request and link to your deans or individual professors, if that is how you prefer to complete this request.

All the best,

Jose Arevalo, Ph.D.
